## Tallys Corner:

**Poverty and the Underclass** William A Kelso,1994-10-01 Explains the failure on both sides of the aisle of the War on Poverty The much heralded War on Poverty has failed The number of children living in poverty is steadily on the rise and an increasingly destructive underclass brutalizes urban neighborhoods America s patience with the poor seems to have run out even cities that have traditionally been havens for the homeless are arresting harassing and expelling their street people In this timely work William Kelso analyzes how the persistence of poverty has resulted in a reversal of liberal and conservative positions during the last thirty years While liberals in the 1960s hoped to eliminate the causes of poverty today they increasingly seem resigned to merely treating its effects The original liberal objective of giving the poor a helping hand by promoting equal opportunity has given way to a new agenda of entitlements and equal results In contrast conservatives who once suggested that trying to eliminate poverty was futile now seek ways to eradicate the actual causes of poverty Poverty and the Underclass suggests that the arguments of both the left and right are misguided and offers new explanations for the persistence of poverty Looking beyond the codewords that have come to obscure the debate underclass family values the culture of poverty Kelso emphasizes that poverty is not a monolithic condition but a vast and multidimensional problem During his Presidential campaign Bill Clinton called for an overhaul of the welfare system and spoke of a new covenant to unite both the left and right in developing a common agenda for fighting poverty In this urgent landmark work William Kelso merges conservative radical and liberal ideals to suggest how the intractable problem of poverty may be solved at long last by implementing the principles of this new covenant

Comparative Youth Culture Mike Brake,2013-02-01 Mike Brake suggests that subcultures develop in response to social problems which a group experiences collectively and shows how individuals draw on collective identities to define themselves Constructing Social Reality Loretta Brunious,2017-10-03 This book examines how black children who grow up in an impoverished environment construct their social reality and why this process is a particularly critical factor in their perception and creation of self It argues that black disadvantaged children develop a lifestyle and adopt values based on an identity grounded in racism inequality violence and poverty Constructing Social Reality Self Portraits of poor Black Adolescents makes a valuable contribution to the scholarship by investigating the phenomena of poverty from cognitive linguistic and experiential perspectives in the lives of disadvantaged black adolescents
