The Taste for Civilization Janet A. Flammang, 2009-10-06 This book explores the idea that table activities the mealtime rituals of food preparation serving and dining lay the foundation for a proper education on the value of civility the importance of the common good and what it means to be a good citizen The arts of conversation and diplomatic speech are learned and practiced at tables and a political history of food practices recasts thoughtfulness and generosity as virtues that enhance civil society and democracy In our industrialized and profit centered culture however foodwork is devalued and civility is eroding Looking at the field of American civility Janet A Flammang addresses the gendered responsibilities for foodwork s civilizing functions and argues that any formulation of civil society must consider food practices and the household To allow space for practicing civility generosity and thoughtfulness through everyday foodwork Americans must challenge the norms of unbridled consumerism work life balance and domesticity and caregiving Connecting political theory with the quotidian activities of the dinner table Flammang discusses practical ideas from the delicious revolution and Slow Food movement to illustrate how civic activities are linked to foodwork and she points to farmers markets and gardens in communities schools and jails as sites for strengthening civil society and degendering foodwork

The Taste for Ethics Christian Coff, 2006-02-14 This book marks a new departure in ethics which has up to now been a question of the good life in relation to other people based on Greek concepts of friendship and the Judaeo Christian caritas No early moral teaching discussed man s relation to the origin of foodstuffs and the system that produced them doubtless the question was of little interest since the production path was so short

The Taste for the Other Gilbert Meilaender, 2003 A deeply meditated study of C S Lewis as a social philosopher It does him good service Avoiding unnecessary biographical data Meilaender concentrates rigoursly on Lewis writings in an attempt to get at the heart of his vision of human community and his understanding of morality A discriminating work with an intricate structure well suited to the subject Modern Language Review Meilaender s first class scholarly study of Lewis s social and ethical thought is also a fine commentary on his anthropology A well written interpretation of the man who has probably had more influence on the theology of thoughtful Christians in the twentieth century than all the church s professional theologians Choice Meilaender is a master exegete and

critic of Lewis dialectical vision in all its rich concreteness This work must now stand as our best guide to Lewis s thought Christian Century A remarkably complete look at Lewis s thought New Oxford Review Combining solid scholarship with literary imagination Meilaender does what Lewis himself does he fascinates readers and draws them unawares into serious thought and into reflection requiring a response A first rate study of Lewis that can serve also as an introduction to a serious study of all of Lewis s works Religious Studies Review A book that has been needed for a long time Meilaender brings to his study not only an in depth knowledge of philosophy and theology but also a keen literary awareness A gracefully readable luminously clear book Christianity and Literature GILBERT MEILAENDER is the Phyllis and Richard Duesenberg Professor of Christian Ethics at Valparaiso University His most recent book is Bioethics A Primer for Christians Eerdmans *A Taste for Provence* Helen Lefkowitz Horowitz,2016-06-10 In *A Taste for Provence* historian Helen Lefkowitz Horowitz digs into this question and spins a wonderfully appealing tale of how Provence became Provence **Food for Life** Loyle Shannon Jung,2004-01-01 *Food for Life* draws on L Shannon Jung s gifts as theologian ethicist pastor and eater extraordinaire In this deeply thoughtful but very lively book he encourages us to see our humdrum habits of eating and drinking as a spiritual practice that can renew and transform us and our world In a fascinating sequence that takes us from the personal to the global Jung establishes the religious meaning of eating and shows how it dictates a healthy order of eating He exposes Christians complicity in the face of widespread eating disorders we experience personally culturally and globally and he argues that these disorders can be reversed through faith Christian practices attention to habitual activities like cooking and gardening the church s ministry and transforming our cultural policies about food **Belgravia** ,1874 *Report* Illinois Farmers' Institute,1897 *Complete Works* William Shakespeare,1896 **The Catechism Explained** Francis Spirago,1899 This Catechism is divided into three parts The first part treats of faith the second of morals the third of the means of grace In the first part Our Lord appears in His character of Teacher in the second in His character of King and in the third in His character of High Priest And since this Catechism proposes as its primary object to answer the question for what purpose are we here upon earth thereby emphasizing and giving prominence to man s high calling and destiny it is especially suited to the present day when the pursuit of material interests self indulgence and pleasure engrosses the attention of so many This Catechism is in fact nothing more nor less than an abstract of Our Lord s teaching and may be called a guide book for the Christian on the road to heaven Preface *The Complete Works of Samuel Taylor Coleridge: Notes and lectures upon Shakespeare, and some of the old poets and dramatists, with other literary remains of S.T.
