

A high-angle photograph of a cityscape. In the foreground, a large, flat roof of a building is covered in a dense layer of green vegetation, likely a green roof or a garden. Below the roof, a large, open green field stretches across the middle ground. In the background, a dense cluster of buildings, including residential and commercial structures, is visible under a clear blue sky.

effects of intrusive urban activities such as manufacturing and transport on sensitive land uses including residential and recreational areas Can a balance be found between reducing these effects through means such as separating conflicting land uses While other sources identify the need for effective programmes to improve urban environmental quality this volume describes and assesses analytical methods and implementing programmes practised by leading communities around the world *Land Use in an Urban Environment: a General View of Town and Country Planning* Paul Brenikov,1961
