## **Sociology In Our Times Studstudy Tools:**

**Social Research for our Times** Claire Cameron ,Alison Koslowski,Alison Lamont ,Peter Moss,2023-11-14 For 50 years researchers at UCL s Thomas Coram Research Unit have been undertaking ground breaking policy relevant social research Their main focus has been social issues affecting children young people and families and the services provided for them Social Research for our Times brings together different generations of researchers from the Unit to share some of the most important results of their studies Two sections focus on the main findings and conclusions from research into children and children services and on family life minoritised groups and gender A third is then devoted to the innovative methods that have been developed and used to undertake research in these complex areas Running through the book is a key strategic question what should be the relationship between research and policy Or put another way what does policy relevant research mean This perennial question has gained new importance in the post Covid post Brexit world that we have entered making this text a timely intervention for sharing decades of experience Taking a unique opportunity to reflect on research context as well as research findings this book will be of interest to researchers teachers students and those involved in policy making both in and beyond dedicated research units and can be read as a whole or sampled for individual standalone chapters

**Active Learning: Theoretical Perspectives, Empirical Studies and Design Profiles** Robert Cassidy,Elizabeth S. Charles,James D. Slotta,Nathaniel Lasry,2019-07-11 This book represents the emerging efforts of a growing international network of researchers and practitioners to promote the development and uptake of evidence based pedagogies in higher education at something a level approaching large scale impact By offering a communication venue that attracts and enhances much needed partnerships among practitioners and researchers in pedagogical innovation we aim to change the conversation and focus on how we work and learn together i e extending the implementation and knowledge of co design methods In this first edition of our Research Topic on Active Learning we highlight two of the three types of publications we wish to promote First are studies aimed at understanding the pedagogical designs developed by practitioners in their own practices by bringing to bear the theoretical lenses developed and tested in the education research community These types of studies constitute the practice pull that we see as a necessary counterbalance to knowledge push in a more productive pedagogical innovation ecosystem based on research practitioner partnerships Second are studies empirically examining the implementations of evidence based designs in naturalistic settings and under naturalistic conditions Interestingly the teams conducting these studies are already exemplars of partnerships between researchers and practitioners who are uniquely positioned as in betweens straddling the two worlds As a result these publications represent both the rigours of research and the pragmatism of reflective practice In forthcoming editions we will add to this collection a third type of publication design profiles These will present practitioner developed pedagogical designs at varying levels of abstraction to be held to scrutiny amongst practitioners instructional designers and researchers alike We hope by bringing these types of studies together in

an open access format that we may contribute to the development of new forms of practitioner researcher interactions that promote co design in pedagogical innovation     **Rule Technologies. Research, Tools, and Applications** Jose Julio Alferes, Leopoldo Bertossi, Guido Governatori, Paul Fodor, Dumitru Roman, 2016-06-27 This book constitutes the refereed proceedings of the 10th International RuleML Symposium RuleML 2016 held in New York NY USA during July 2016 The 19 full papers 1 short paper 2 keynote abstracts 2 invited tutorial papers 1 invited standard paper presented were carefully reviewed and selected from 36 submissions RuleML is a leading conference aiming to build bridges between academia and industry in the field of rules and its applications especially as part of the semantic technology stack It is devoted to rule based programming and rule based systems including production rule systems logic programming rule engines and business rule engines and business rule management systems Semantic Web rule languages and rule standards and technologies and research on inference rules transformation rules decision rules and ECA rules     **Teaching Visual Methods in the Social Sciences** Sal Watt, Caroline Wakefield, 2017-05-08 Teaching Visual Methods in the Social Sciences presents a practical and theoretical framework for those wanting to introduce visual methods into their curricula Drawing on the expertise of contributors from across the social sciences the book provides a comprehensive introduction to visual methodology learning and teaching theory and the ethical considerations involved Divided into three parts the book begins with an overview of how visual methods have been used in academic research and how this can be applied to teaching and pedagogy It then goes on to introduce different methods including photography film and drawing describing how they can be used in various locations Finally the book pulls everything together advocating the wider use of teaching visual methods in further and higher education curricula across the social science subjects The book features a plethora of examples as well as practical resources for FE and HE teachers making it an essential companion for anyone interested in utilising visual methods in their teaching
