

Some women don't get to live soft lives.

They get handed chaos, grief, betrayal, and they have to learn how to bloom anyway. They become the ones who know how to carry others when their world falls apart because they remember what it was like when no one showed up for them. They're not here because it was easy. They're here because they didn't give up.

Politics of the 'Other' in India and China Lion Koenig, Bidisha Chaudhuri, 2016-02-22 The social sciences have been heavily influenced by modernization theory focusing on issues of economic growth political development and social change in order to develop a predictive model of linear progress for developing countries following a Western prototype Under this hegemonic paradigm of development the world tends to get divided into simplistic binary oppositions between the West and the rest us and them and self and other Proposing to shift the discussion on what constitutes the Other as opposed to the Self from philosophy and cultural studies to the social sciences this book explores how the structural asymmetries existing between Western discourses and the realities of the non Western world manifest themselves in the ideas institutions and socio political practices of India and China and in how far they shape the social scientist s understanding of their discipline in general It provides a counter narrative by revealing the relativity of geographies and by showing that the conventional presentation of core elements of the Asian socio political set up as aberrations from the Western models fails to acknowledge their inherent strategic character of adapting Western concepts to meet local requirements Drawing on multiple disciplines concepts and contexts in India and China the book makes a valuable contribution to the theory and practice of politics as well as to International and Asian Studies **Official Gazette of the United States Patent and Trademark Office** ,2007
