**Franziska Morlok, Till Beckmann**

## Soft Touch:

**Print and Production Finishes for Sustainable Design** Edward Denison, 2009 Print and Production Finishes for Sustainable Design is an indispensable ideas sourcebook and practical guide to what has become an important consideration for many designers sustainability The book shows examples of environmentally friendly inks varnishes pigments and finishes that can be used in a wide range of standard printed media Printing innovations and specialized printing techniques using environmentally friendly ingredients are also included The book provides an overview of different printable materials available to both 2 D and 3 D designers including recyclable paper paper substitutes and biodegradable plastics Innovative 3 D designs that demonstrate clear environmental benefits derived from the application of printing types of manufacturing techniques or use of specific materials are showcased and explained Environmentally sound printing and production finishes are often one of the outcomes of a lengthy design process by companies dedicated to reducing their impact on the environment Print and Production Finishes for Sustainable Design includes case studies of companies where the entire organizational objective is based on achieving organizational sustainability i e zero net impact and where printing and production processes have been integral to achieving this extra Franziska Morlok, Till Beckmann, 2013-02-12 Graphic designers who wish to work with print finishes like blind embossing and phosphorescent ink constantly face the same problem there are no compelling examples of the available techniques They must either turn to existing books which only present them in photographs and make it impossible to experience their tactile qualities or to samples in advertising brochures put out by individual printing presses which are so focused on the technology that their visual and haptic appeal is lost This is where extra comes in it uses sensuously experienced examples to present the most important finishing techniques practically and theoretically in variants and experimental combinations Thirty internationally renowned designers created pages especially for this book as a basis for explaining the special design and technical features of each technique with an in depth exploration of its possible uses Additional articles deal with general issues such as planning and costing a finish or its mode of operation With its large amount of information its easy to navigate structure and a glossary this book is an indispensable reference work on print finishing At the same time its experimental character and high quality design make it a source of inspiration for everyone with an interest in the subject Designers of the show pages in alphabetical order 123buero Antoine Manuel Catalogtree Drushba Pankow Fanette Mellier Fons Hickmann m23 Hans Gremmen Hort Sarah Illenberger Jung Wenig Karlssonwilker inc Hoon Kim Hort Yang Liu Mario Lombardo LUST Thomas Mayfried mischen Maureen Mooreen NODE Berlin Oslo OK RM onlab Pixelgarten Project Projects Rimini Berlin Viola Schmieskors Ariane Spanier Annik Troxler ppig Weiss heiten Design Welcometo as *Popular Science*, 1977-12 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better PC Mag, 1987-08

PCMag.com is a leading authority on technology delivering Labs based independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology. [Virtual Technologies for Business and Industrial Applications: Innovative and Synergistic Approaches](#) Rao, N. Raghavendra, 2010-07-31. This book provides research related to the concept of virtual reality and developing business models using this concept. Provided by publisher [CMF Design](#) Liliana Becerra, 2016-05-01. In this first book about the rather young discipline the author consolidated its key principles so that they can be consulted, referenced and utilised by both design students and professionals. Only when the perfect balance between visual beauty and functional performance is achieved can a product provide a consistent and successful user experience. The discipline of CMF design focuses on designing and specifying colours, materials and finishes to support both functional and emotional attributes of products. The work of the CMF designer combines aesthetics and practical knowledge of materials and technologies with intangible human perceptions of value. This area of design expertise is increasingly in demand. Consumer product manufacturers have an enhanced awareness of its great potential for diversifying product portfolios at relatively low costs while still maintaining a similar or the same product shape, functionality or tooling. It can work as a key avenue to create a sense of novelty and higher value propositions. From a marketing perspective CMF design is a valuable tool when it comes to positioning products, collections and categories according to market tiers and consumer segmentations. Introducing the CMF process and detailing the areas of colour, material and finish design this book serves as a valuable source of information about this emerging professional discipline and its fundamental principles. [Backpacker](#), 1991-04. Backpacker brings the outdoors straight to the reader's doorstep inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure Backpacker is the world's first GPS enabled magazine and the only magazine whose editors personally test the hiking trails, camping gear and survival tips they publish. Backpacker's Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured. [Backpacker](#), 1995-12. Backpacker brings the outdoors straight to the reader's doorstep inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure Backpacker is the world's first GPS enabled magazine and the only magazine whose editors personally test the hiking trails, camping gear and survival tips they publish. Backpacker's Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured. [A Practical Guide to Plastics Sustainability](#) Michel Biron, 2020-04-18. A Practical Guide to Plastics Sustainability Concept, Solutions and Implementation is a groundbreaking reference work offering a broad, detailed and highly practical vision of the complex concept of sustainability in plastics. The book's aim is to present a range of potential pathways towards more sustainable plastics parts and products enabling the reader to further integrate the idea of sustainability into their design process. It begins by introducing the

context and concept of sustainability discussing perceptions drivers of change key factors and environmental issues before presenting a detailed outline of the current situation with types of plastics processing and opportunities for improved sustainability Subsequent chapters focus on the different possibilities for improved sustainability offering a step by step technical approach to areas including design properties renewable plastics and recycling and re use Each of these pillars are supported by data examples analysis and best practice guidance Finally the latest developments and future possibilities are considered Approaches the idea of sustainability from numerous angles offering practical solutions to improve sustainability in the development of plastic components and products Explains how sustainability can be applied across plastics design materials selection processing and end of life all set alongside socioeconomic factors Considers key areas of innovation such as eco design novel opportunities for recycling or re use bio based polymers and new technologies **Surfing** ,1976
