Solar Biology Hiram Butler,2020-04-12 Using Solar Biology equals to Astrological Divination made simple In Hiram Butler s ingenious system everyone is divided into twelve archetypes based on their natal sun sign Actually Butler divided everyone into 144 archetypes based on their natal sun and moon signs The planets are also used but only the sign they occupy is important the angles between them are ignored This makes it easy to create a horoscope as the time and place of birth are no longer required The tricky computation of the rising signs and houses is skipped
