Soldier Boy Michael Shaara, 1982 Benchmarks Continued 1975-1982 Algis Budrys, 2012 Consists of book reviews and essays written for The magazine of fantasy and science fiction **Timescapes of Waiting** ,2019-08-26 Timescapes of Waiting explores the intersections of temporality and space by examining various manifestations of spatial im mobility The individual articles approach these spaces from a variety of academic perspectives including the realms of history architecture law and literary and cultural studies in order to probe the fluid relationships between power time and space The contributors offer discussion and analysis of waiting spaces like ante chambers prisons hospitals and refugee camps and also of more elusive spaces such as communities and nation states Contributors Olaf Berwald Elise Brault Dreux Richard Hardack Kerstin Howaldt Robin Kellermann Amanda Lagji Margaret Olin Helmut Puff Katrin R der Christoph Singer Cornelia Wchter Robert Wirth **Mediterranean Timescapes** Ray Laurence, Francesco Trifilò, 2023-04-27 This book built around the study of the representation of age and identity in 23 000 Latin funerary epitaphs from the Western Mediterranean in the Roman era sets out how the use of age in inscriptions and in turn time varied across this region Discrepancies between the use of time to represent identity in death allow readers to begin to understand the differences between the cultures of Roman Italy and contemporary societies in North Africa Spain and southern Gaul The analysis focuses on the timescapes of cemeteries a key urban phenomenon in relation to other markers of time including the Roman invention of the birthday the revering of the dead at the Parentalia and the topoi of life s stages In doing so the book contributes to our understanding of gender the city the family the role of the military freed slaves and cultural changes during this period The concept of the timescape is seen to have varied geographically across the Mediterranean bringing into question claims of cultural unity for the Western Mediterranean as a region Mediterranean Timescapes is of interest to students and scholars of Roman history and archaeology particularly that of the Western Mediterranean and ancient social history **The Timescapes of John Fowles** Harald William Fawcner, 1984 This critical study explicates the complex and elusive fiction of John Fowles in terms of the tensions between time and timelessness The author introduces insights gained from recent scientific and interdisciplinary studies of the apprehension of temporality and constructs a model for the hierarchy of levels of time in fiction **The Magazine of Fantasy and Science Fiction** Anthony Boucher, J. Francis McComas, 1982 **Fantasy Newsletter** , 1983 **Toxic Timescapes** Simone M. Müller, May-Brith Ohman Nielsen, 2023-01-17 An interdisciplinary environmental humanities volume that explores human environment relationships on our permanently polluted planet While toxicity and pollution are ever present in modern daily life politicians juridical systems media outlets scholars and the public alike show great difficulty in detecting defining monitoring or generally coming to terms with them This volume s contributors argue that the source of this difficulty lies in the struggle to make sense of the intersecting temporal and spatial scales working on the human and more than human body while continuing to acknowledge race class and gender in terms of global

environmental justice and social inequality The term toxic timescapes refers to this intricate intersectionality of time space and bodies in relation to toxic exposure As a tool of analysis it unpacks linear understandings of time and explores how harmful substances permeate temporal and physical space as both event and process It equips scholars with new ways of creating data and conceptualizing the past present and future presence and possible effects of harmful substances and provides a theoretical framework for new environmental narratives To think in terms of toxic timescapes is to radically shift our understanding of toxicants in the complex web of life Toxicity pollution and modes of exposure are never static therefore dose timing velocity mixture frequency and chronology matter as much as the geographic location and societal position of those exposed Together these factors create a specific toxic timescape that lies at the heart of each contributor s narrative Contributors from the disciplines of history human geography science and technology studies philosophy and political ecology come together to demonstrate the complex reality of a toxic existence Their case studies span the globe as they observe the intersection of multiple times and spaces at such diverse locations as former battlefields in Vietnam aging nuclear weapon storage facilities in Greenland waste deposits in southern Italy chemical facilities along the Gulf of Mexico and coral breeding laboratories across the world **Analog Science Fiction/science Fact** ,1982 Library Journal ,2000
