Soldier The Builder The Diplomat:

Diplomacy and the Making of World Politics Ole Jacob Sending, Vincent Pouliot, Iver B. Neumann, 2015-08-20 This book examines world politics through the lens of diplomatic practice It argues that many global phenomena of our time from the making of international law to the constitution of international public power through humanitarianism and the maintenance of global hierarchies are made possible and shaped by evolving forms of diplomacy The study of diplomacy is largely dominated by firsthand accounts and historical treaties with little effort at theoretical discussion This book shows how diplomatic studies can benefit from more explicit theorizing and argues that the study of world politics should pay more attention to what goes on in the diplomatic engine room of international politics *Soldiers and Diplomacy in Burma*

Renaud Egreteau, Larry Jagan, 2013-06-10 *Soldiers and Diplomacy* addresses the key question of the ongoing role of the military in Burma's foreign policy The authors a political scientist and a former top Asia editor for the BBC provide a fresh perspective on Burma's foreign and security policies which have shifted between pro active diplomacies of neutralism and non alignment and autarkical policies of isolation and xenophobic nationalism They argue that important elements of continuity underlie Burma's striking postcolonial policy changes and contrasting diplomatic practices Among the defining factors here are the formidable dominance of the Burmese armed forces over state structure the enduring domestic political conundrum and the peculiar geography of a country located at the crossroads of India China and Southeast Asia Egreteau and Jagan argue that the Burmese military still has the tools needed to retain their praetorian influence over the country's foreign policy in the post junta context of the 2010s For international policymakers potential foreign investors and Burma's immediate neighbors this will have strong implications in terms of the country's foreign policy approach
