Poska, 2016-02-15 Between 1778 and 1784 the Spanish Crown transported more than 1 900 peasants including 875 women and girls from northern Spain to South America in an ill fated scheme to colonize Patagonia The story begins as the colonists trudge across northern Spain to volunteer for the project and follows them across the Atlantic to Montevideo However before the last ships reached the Americas harsh weather disease and the prospect of mutiny on the Patagonian coast forced the Crown to abandon the project Eventually the peasant colonists were resettled in towns outside of Buenos Aires and Montevideo where they raised families bought slaves and gradually integrated into colonial society Gendered Crossings brings to life the diverse settings of the Iberian Atlantic and the transformations in the peasants gendered experiences as they moved around the Spanish Empire

Necessity in International Law Jens David Ohlin, Larry May, 2016-09-09 Necessity is a notoriously dangerous and slippery concept dangerous because it contemplates virtually unrestrained killing in warfare and slippery when used in conflicting ways in different areas of international law Jens David Ohlin and Larry May untangle these confusing strands and perform a descriptive mapping of the ways that necessity operates in legal and philosophical arguments in *jus ad bellum* *jus in bello* human rights and criminal law Although the term necessity is ever present in discussions regarding the law and ethics of killing its meaning changes subtly depending on the context It is sometimes an exception at other times a constraint on government action and most frequently a broad license in war that countenances the wholesale killing of enemy soldiers in battle Is this legal status quo in war morally acceptable Ohlin and May offer a normative and philosophical critique of international law's prevailing notion of *jus in bello* necessity and suggest ways that killing in warfare could be made more humane not just against civilians but soldiers as well Along the way the authors apply their analysis to modern asymmetric conflicts with non state actors and the military techniques most likely to be used against them Presenting a rich tapestry of arguments from both contemporary and historical Just War theory Necessity in International Law is the first full length study of necessity as a legal and philosophical concept in international affairs

Witnessing the Revolutionary and Napoleonic Wars in German Central Europe L. James,2013-10-31 Drawing on a wide range of primary sources this volume argues that although the Revolutionary and Napoleonic Wars are often understood as laying the foundations for total war many eyewitnesses continued to draw upon older interpretative frameworks to make sense of the armed struggle and attendant political and social upheaval

MacLeish,2015-03-01 An intimate look at war through the lives of soldiers and their families at Fort Hood Making War at Fort Hood offers an illuminating look at war through the daily lives of the people whose job it is to produce it Kenneth MacLeish conducted a year of intensive fieldwork among soldiers and their families at and around the US Army's Fort Hood in central Texas He shows how war's reach extends far beyond the battlefield into military communities where violence is as routine, boring and normal as it is shocking and traumatic Fort Hood is one of the largest military installations in the world and many of the 55 000 personnel based there have served multiple tours in Iraq and Afghanistan MacLeish provides intimate portraits of Fort Hood's soldiers and those closest to them drawing on numerous in-depth interviews and diverse ethnographic material He explores the exceptional position that soldiers occupy in relation to violence not only trained to fight and kill but placed deliberately in harm's way and offered up to die The death and destruction of war happen to soldiers on purpose MacLeish interweaves gripping narrative with critical theory and anthropological analysis to vividly describe this unique condition of vulnerability Along the way he sheds new light on the dynamics of military family life stereotypes of veterans what it means for civilians to say thank you to soldiers and other questions about the sometimes ordinary sometimes agonizing labor of making war Making War at Fort Hood is the first ethnography to examine the everyday lives of the soldiers families and communities who personally bear the burden of America's most recent wars
