**Solid Gold Success Strategies for Your Business** Donald D. Taylor, 1996 This text offers syndicated columnist Don Taylor's homespun parables, horse sense and tales of triumph gained while travelling and consulting across the US. It covers a range of topics including how to improve business relationships, generate effective advertising and free publicity, track and analyze financial information, understand the difference between strategic planning and operational planning, deliver customer service and weed out the onerous customers that can drain a business and start a new business without tripping up on the pitfalls. Developing a Successful Personal & Business Vision Rich Brott, 2009 Dreams worth pursuing do not have to be spectacular or amazing. The important thing is living a dream that is really yours. Those who are most fulfilled know what they want and go after it. Understanding and shaping vision is the basis for any new or existing personal or business career. Vision development is a process. But first it seems appropriate to ask some questions: Why are you here? What is your personal purpose in life? Why are you doing what you are doing? What brought you to this profession? Why are you where you are? These are all questions you must ask yourself before developing a successful personal vision. They same holds true when it comes to a business vision. Understanding who you are and what you are all about is pertinent to understanding what it is you want to accomplish.

**Advancing a Successful Business** Rich Brott, 2009 Business focus is an integral part of your ability to advance and build your business into something beyond mediocrity. Staying focused on your vision and purpose is very key. Nothing significant is ever achieved without focus. If it's worth getting, it must be the focus of your attention at all times. Focus begins with a sense of purpose, mission and vision. This is your sense of direction, your road map, your life track for the business. It's where you are headed. A growing company does not continue without great business productivity, timely follow through and effective leadership. Advancing a Successful Business is not automatic and will not happen without a steady hand at the helm, backed by a great team who stays alert and motivated. **Small Business Sourcebook**, 2005 A guide to the information services and sources provided to 100 types of small business by associations, consultants, educational programs, franchisers, government agencies, reference works, statisticians, suppliers, trade shows and venture capital firms.
