British Literature in Transition, 1960-1980: Flower Power

Catherine Mary McLoughlin, 2019 This volume traces transitions in British literature from 1960 to 1980 illuminating a diverse range of authors texts genres and movements It considers innovations in form emergent identities changes in attitudes preoccupations and in the mind itself local and regional developments and shifts within the oeuvres of individual authors

Fiction and the Ways of Knowing Avrom Fleishman, 2014-07-03 In this highly individual study Avrom Fleishman explores a wide range of literary references to human culture the culture of ideas facts and images Each critical essay in Fiction and the Ways of Knowing takes up for sustained analysis a major British novel of the nineteenth or the twentieth century The novels are analyzed in the light of social historical philosophical and other perspectives that can be grouped under the human sciences The diversity of critical contexts in these thirteen essays is organized by Avrom Fleishman's governing belief in the interrelations of literature and other ways of interpreting the world The underlying assumptions of this approach as explained in his introductory essay are that fiction is capable of encompassing even the most recondite facts and recalcitrant ideas that fiction though never a mirror of reality is linked to realities and takes part in the real and that a critical reading may be informed by scientific knowledge without reducing the literary work to a schematic formula Fleishman investigates the matters of fact and belief that make up the designated meanings the intellectual contexts and the speculative parallels in three types of novel Some of the novels discussed make it clear that their authors are informed on matters beyond the nonspecialist's range these essays help bridge this information gap Other fictional works are only to be grasped in an awareness of the cultural lore tacitly distributed in their own time a modern reader must make the effort to fathom their anachronisms And other novels can be found to open passageways that their authors can only have glimpsed intuitively these must be pursued with great caution but equal diligence The novels discussed include Little Dorrit The Way We Live Now Daniel Deronda The Return of the Native and The Magus Also examined are Wuthering Heights Vanity Fair Northanger Abbey To the Lighthouse Under Western Eyes Ulysses and A Passage to India

Green Voices Terry Gifford, 1995 The author here argues that the traditions of Pope and Goldsmith are continued in the present day by the likes of R S Thomas George Mackay Brown and others work in an anti pastoralist tradition of Crabbe and Clare A chapter examining the attitudes towards the environment of sixteen contemporary poets concludes a lively ecological introduction to modern poetry

Reading Old Friends John Matthias, 1992-02-06 Reading Old Friends includes essays reviews and poems on poetics Matthias who has spent much time in England concentrates on British poetry ranging from late modernist figures such as David Jones and Hugh MacDiarmid to contemporaries such as Geoffrey Hill Seamus Heaney Michael Hamburger and John Fuller He also seeks to establish or re establish meaningful trans Atlantic connections between Wendell Berry and Jeremy Hooker for example or between Robert Duncan and David Jones Other more generally acknowledged figures are also

discussed including Wordsworth Pope Crabbe Constable Turner Britten Tippet Lowell Auden and Berryman The book also contains three poems on poetics that engage many of the theoretical issues left implicit in most of the essays *In Black and Gold* ,2022-06-08 In Black and Gold indicates that opposed styles of poetry reveal subterranean correspondences that occasionally meet and run together Austerity or tomfoolery are two of the many valid responses to the human condition that create the contiguous traditions that cannot help touching and reacting to each other The poetry discussed in this book deals with the relation of individuals to strange or to familiar landscapes and what this means to their own sense of displacement or rootedness with the use of history as an escape from or as a challenge to an apparently failing present and with the role of nationalism either as a refuge for angry frustration or as a weapon against the affronting world or as an ambivalent loyalty that needs to be scoured or as all three Here we find poetry as a means of discovering true or false allegiances and valid or invalid public and private identities poetry as a medium for exploring the uses of the demotic in confronting the breakdowns and injustices of modern democracy poetry as play in the midst of private and public woe poetry as a spiritual quest as a spiritual scourging as a wrestling with spiritual absences and poetry as an intermittent and sporadic commemoration of the triumphs and delights of epiphanic encounters with the physical world **Literature of Nature** Patrick D. Murphy,Terry Gifford,Katsunori Yamazato,1998 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company *A View from the Source* Jeremy Hooker,1982 *The Cut of the Light* Jeremy Hooker,2006 Draws on Jeremy Hooker s poetry written over a period of forty years This book shows the development of a poetry concerned with nature and history and the spirit of place and comprises both formal variety and the art of seeing which relates Hooker to an important tradition of British and American poetry **The Anglo-Welsh Review** ,1979 **Agenda** William Cookson,1982 **The Powys Review** ,1985 *London Magazine* John Lehmann,Alan Ross,2007 **David Jones** Belinda Humfrey,Anne Price-Owen,2000 This volume discusses the work of David Jones both as artist and as poet Each of the 12 essays in this collection presents new material and in so doing makes more apparent the formidably wide range of Jones s work **Poetry Wales** ,1988 **The London Magazine** ,2007 *Whitaker's Cumulative Book List* ,1975 *Arts & Humanities Citation Index* ,1976 **The Writers Directory** ,1996 *Reference Wales* ,1994 The information provided in this book aims to fill a gap in the reference literature on Wales and contains all the facts that the reader would want to know about the country The contents are arranged under 17 subject headings in lists and tables so that information can be easily located
