Order cultural imaginary He pursues the fugitive signs of circumstances that might resist the powers of New Order rule through unexpected village practices among graveyard spirits and within ascetic refuges Key to this study is a reexamination of the historical conditions under which a discourse of culture emerges Providing a close reading of a number of Central Javanese manuscripts from the late eighteenth century on Pemberton outlines the conditions of knowledge formation in Indonesia since the beginning of Dutch colonial control As he overturns common assumptions concerning colonial encounters he discloses the gradual emergence in these texts of a discursive figure inscribed in contrast to the increasingly invasive presence of the Dutch a figuration of difference that came to be called Java
