immers belast met de centrale taak van het waken over een populatie die er niet vrijwillig verblijft en bovendien potentieel

gevaarlijk is Het onderzoek naar gevangenisbewaarders heeft zich in de loop der jaren voornamelijk gefocust op hun

professionele attitudes en cultuur alsook op de impact van gevangeniswerk op hun sociale en private levens We hebben tot

op heden echter weinig kennis over wat bewaarders daadwerkelijk op dagelijkse basis doen en welke mechanismen er ten

grondslag liggen van deze attitudes en gedrag Hanne Tournel observeerde meer dan een jaar in een Belgische gevangenis Dit boek biedt een unieke kijk in het professionele leven van bewaarders en speelt in op deze heersende lacunes

**Administrative Presidency** William G. Resh,2015-10-29 The first book to explore the tension between U S presidents and federal agencies from the perspective of careerists in the executive branch Why do presidents face so many seemingly avoidable bureaucratic conflicts And why do these clashes usually intensify toward the end of presidential administrations when a commander in chief s administrative goals tend to be more explicit and better aligned with their appointed leadership s prerogatives In Rethinking the Administrative Presidency William G Resh considers these complicated questions from an empirical perspective Relying on data drawn from surveys and interviews Resh rigorously analyzes the argument that presidents typically start from a premise of distrust when they attempt to control federal agencies Focusing specifically on the George W Bush administration Resh explains how a lack of trust can lead to harmful agency failure He explores the extent to which the Bush administration was able to increase the reliability and reduce the cost of information to achieve its policy goals through administrative means during its second term Arguing that President Bush s use of the administrative presidency hindered trust between appointees and career executives to deter knowledge sharing throughout respective agencies Resh also demonstrates that functional relationships between careerists and appointees help to advance robust policy He employs a joists vs jigsaws metaphor to stress his main point that mutual support based on optimistic trust is a more effective managerial strategy than fragmentation founded on unsubstantiated distrust An original and valuable book that extends the literature on the administrative presidency A must read Hal G Rainey The University of Georgia author of Understanding and Managing Public Organizations [\*\*Sociological Abstracts\*\*](#) Leo P.
