*The Transnationalized Social Question* Thomas Faist, 2018-12-13 The social question is back Yet today s social question is not primarily between labour and capital as it was in the nineteenth century and throughout much of the twentieth The contemporary social question is located at the interstices between the global South and the global North It finds its expression in movements of people seeking a better life or fleeing unsustainable social political economic and ecological conditions It is transnationalized not only because migrants and their significant others entertain ties across the borders of national states staying in touch with family and friends receiving or sending financial remittances in transnational social spaces Also of importance are cross border recruitment schemes for workers and the cross border diffusion of norms appealed to in the case of migration for example the social right to decent work as a human right Moreover migration can become an issue of inclusion or exclusion in fields important to life chances in the emigration transit or immigration states a transnationalization of national states And as in the nineteenth century political conflicts arise constituting the social question as a public concern In earlier periods class differences dominated conflicts While class has always been criss crossed by manifold heterogeneities not least of all cultural ones around ethnicity religion and language it is these latter heterogeneities that have sharpened in situations of immigration and emigration over the past decades Casting a wide net in terms of conceptual and empirical scope this book tackles both the social structure and the politics of social inequalities It sets a comprehensive agenda for research which also includes the public role of social scientists in dealing with the transnationalized social question

*Screen Culture and the Social Question, 1880-1914* Ludwig Vogl-Bienek, Richard Crangle, 2014-01-20 Essays exploring how reformers and charities used the magic lantern to raise public awareness of poverty Public performances using the magic or optical lantern became a prominent part of the social fabric of the late nineteenth century Drawing on a rich variety of primary sources *Screen Culture and the Social Question 1880 1914* investigates how the magic lantern and cinematograph

used at public lectures church services and electoral campaigns became agents of social change The essays examine how social reformers and charitable organizations used the art of projection to raise public awareness of the living conditions of the poor and the destitute as they argued for reform and encouraged audiences to work to better their lot and that of others

**Society in Question** Robert J. Brym, 2001-01      *The Social in Question* Patrick Joyce, 2012-12-06 With postmodernism has come the questioning of the very idea of the social Thinkers from across the social sciences and humanities now agree that this one foundational concept can no longer be taken for granted as an objective or real characteristic of the world However their uncertainty has taken on many guises and the social in Question represents an attempt to pull these diverse forms of questioning together Drawn from sociology cultural studies history and theology an international and eminent cast of contributors look at how the idea of the social developed from its mediaeval foundations to its consolidation in the early twentieth century The book then charts how the concept has been brought into the question by critiques from science studies cultural studies and postcolonial studies before going on to look at how new frameworks are being proposed for the exploration of issues formerly seen as the social This book makes a fascinating contribution to the rethinking of contemporary academic activity

*Social Mobility in Argentina. An Inquiry into the Educational System* M. Nicolás Jacobsen, 2017-09-26 Master's Thesis from the year 2015 in the subject Sociology Social System and Social Structure grade 12 Aalborg University language English abstract The purpose of this thesis has been to investigate the role of the Argentinean Educational System and its relation with the degree of social mobility in the country Considering on one side that education is free for everyone in Argentina but on the other side that the levels of attainment of higher education are so low this thesis aims to explore the role of education and more specifically the functioning of the Educational System in order to highlight its impact on the degree of social mobility Furthermore the thesis analyzes the consequences of the observed levels of poverty and inequality as well as how the pedagogies implemented in the Educational System affect its outcome The thesis examines the socioeconomic and sociopolitical historical events that have influenced on the structure and the functioning of the Educational System as well as the current situation of the country and the future perspectives Moreover the thesis analyzes the determinant factors that have influenced in the decision of a small number of people regarding higher education Analyzing these aspects the thesis highlights to which extent the Educational System is reproducing the same social structure or it is able to change that avoiding the perpetuation of poverty and inequality The theoretical framework founded on Bourdieu's theory of social reproduction and its main concepts of habitus field capitals and symbolic violence made possible to analyze both the structure and the functioning of the Educational System on one side and the individuals' motivation toward higher education on the other side providing a comprehensive picture of how the ES the individuals' background and the interaction between them determine the degree of social mobility The thesis arrives to the conclusion that the Educational System plays a very relevant role on the degree of social mobility and that the socioeconomic and

sociopolitical contexts can conceal or exhibit the truth behind the common perception about that role      *Transactions of the Minnesota State Medical Association* Minnesota State Medical Association,1896 List of members in each volume
