## **Soiling And Cleaning Of Building Facades:**

**The Soiling and Cleaning of Building Facades** L.G.W. Verhoef, 2004-06-02 The report of a comprehensive investigation by RILEM which examines all aspects of the cleaning of facades subject to soiling by both biological and non biological agencies. The contributors are international authorities working in this field giving essential advice to all those who need to know how to approach the problems connected with the soiling and cleaning of building facades. Historic Building Façades New York Landmarks Conservancy, 1997-04-24 Comprehensive in depth coverage from leading experts in the field. A historic building is a fragile resource that requires the finest care. Maintenance and rehabilitation of walls and facades call for a thorough understanding of the forces that cause deterioration. Knowledge of the properties of building materials up to date inspection tools and methods and a solid command of renovation and repair techniques. In this complete reference manual recognized experts provide state of the art information and methodologies for the inspection, maintenance and restoration of historic buildings of virtually every period, style and material. Each chapter opens with a general discussion of the facade material and the ways in which structural and decorative elements are vulnerable to an array of environmental forces. After a detailed investigation of tools and techniques for inspection, the text explores planning issues for the restoration or replacement of facade components. Special features include separate chapters on each major type of building material: stonemasonry, brick masonry, terra cotta, masonry, cast stone, mortar, concrete, cast iron, sheet metal and wood. An entire chapter on caulks and sealants, 35 original line drawings and 43 black and white photos that help visualize technical information. Selected success stories from preservation projects across the United States. For architects, building contractors and owners of historic buildings, Historic Building Facades clarifies procedures, helps identify sources of deterioration and offers solutions to even the most difficult maintenance and rehabilitation problems. It is also an excellent reference for building preservationists, architectural historians and students of building design and preservation.

Mick R. Smith, 1999. **Stone Cleaning and the Nature, Soiling and Decay Mechanisms of Stone** Robert Gordon's Institute of Technology, 1992 Brings together contributions from a wide range of specialisms and offers perspectives on issues concerning the cleaning and conservation of stone buildings. Topics covered encompass not only theoretical and philosophical concerns but also problems of weathering and microbiological damage.

**Cleaning Historic Buildings: Substrates, soiling and investigations** Nicola Ashurst, 1994 The first of a two volume set this book addresses questions concerning the cleaning of historic buildings what happens to the fabric of a historic building if it is not cleaned what is soiling and how does it affect the building what cleaning materials should be used. *Aspects Of Stone Weathering, Decay And Conservation: Proceedings Of The 1997 Stone Weathering And Atmospheric Pollution Network Conference (Swapnet)*

'97) Melanie S Jones, Rachel D Wakefield, 1999-03-04 This book brings together papers by scientists conservators and building surveyors active in stone decay and conservation research within the UK. It addresses issues of stone weathering mechanisms and rates the effects of urban pollution cleaning methods and the role of the conservator within research. The concepts regarding the value of stone heritage are also discussed as an important aspect towards retaining our diverse building heritage **Cleaning Techniques in Conservation Practice** Norman R. Weiss, Kyle C. Normandin, Deborah Slaton, 2015-12-08 This book is being simultaneously published as a special issue of the Journal of Architectural Conservation and presents the very latest research and developments in the cleaning of buildings, sculpture and monuments. It covers both wet and dry micro abrasive systems, other types of abrasives, laser cleaning methods and proprietary poultices for specialized applications. The material presented is supported by case study examples from an international selection of major buildings and monuments where the techniques have recently been tried and tested **Stone Conservation: Principles and Practice** Alison Henry, 2015-12-08 Winner of the RIBA Book Award, this important and timely publication brings together contributions from leading stone conservation practitioners. It discusses the philosophical principles on which stone conservation is founded and the need to understand the full history and development of a building before starting work. Other topics covered in this book include consolidation, cleaning and the replacement of stone conservation of different stone types, including limestone, sandstone and marble, problems of dealing with polychrome stone and finally issues relating to church monuments and graveyards, taking account of the need for good maintenance and health and safety requirements. The book is illustrated with the authors' own examples of stone conservation in practice. Architects, surveyors and craftsmen involved in the conservation of stone structures will find this both a practical and useful reference work **ASTM Masonry Standards for the Building Industry**, 2008 Rev ed of ASTM International's masonry standards for the building industry 5th ed 2004

**ASTM International's Masonry Standards for the Building Industry**, 2004 **Handbook of Coatings for Concrete** R. Bassi, S. K. Roy, 2002 In the field of construction the maintenance and repair of concrete structures has become a core activity and the protection of concrete is thus of primary concern. Coatings for concrete should protect against corrosion of the reinforcement and against surface attack. This book addresses the whole subject in a practical way looking at the chemistry, applications and use of the major categories of coatings **Stone Cleaning in Scotland** Historic Scotland, 1992 **Advances in Fluorescence Sensing Technology**, 1997 **Annual Book of ASTM Standards** ASTM International, American Society for Testing and Materials, 2004 **Housing Defects Reference Manual** Building Research Establishment, 1991 **An Investigation Into the Aesthetic and Psychological Effects of the Soiling and Cleaning of Building Facades** Christopher A.
