administrators dramatically more efficient but they come without significant printed documentation. In this book, world recognized Solaris administration expert Janice Winsor covers virtually every aspect of using these tools, offering expert guidance for maximizing your productivity as a Solaris sysadmin in any environment. Winsor covers every aspect of system administration that has been brought together by these tools, including booting and halting systems, user administration, and disk quotas, permissions, shells, controlling the file system, configuring swap space, administering packages and patches, LAN and Internet connectivity, PPP and DNS, NIS, serial and SCSI connections, RPC, NFS, DFS, AUTOFS, kernel administration, mail, system management, and backup/restore. Winsor also shows how to work with the built-in SMC Editor and use it to centralize system administration onto a single network server for maximum efficiency. Sun Certified System Administrator for Solaris 10 Study Guide (Exams CX-310-200 & CX-310-202) Paul Sanghera, 2006-01-03. Primarily written for those who want to earn the Sun Certified System Administrator (SCSA) certification for Solaris 10, this guide presents full coverage of the official objectives for both the required exams CX 310 200 and CX 310 202. In spite of the laser-sharp focus on the exam objectives, this is not a cram-style book. Written in a classroom-based teaching style, this book presents material in a sequential fashion; topics and chapters build upon the previously covered topics and chapters. There is no hopping from topic to topic. An introductory chapter for beginners and a cohesive, concise yet comprehensive presentation of the material makes it a self-contained book that requires no prior experience in Solaris or UNIX. Even after passing the exam, you will find yourself coming back to use this book as an on-the-job reference. Full coverage of exam topics includes: Basic and advanced Solaris 10 installation; Managing file systems and core dumps; Performing user and security administration; Managing network printers and system processes; Performing system backups and restores and managing storage volumes; Managing naming services; Managing role-based access control and system messaging; Understanding fundamentals of TCP/IP networking and managing network services. The book features complete details on all exam objectives, 250 practice questions, step-by-step exercises on the job elements, a two-minute drill at the end of each chapter that reviews the key points in the chapter, and chapter self-tests. The CD contains MasterExam practice exam software with all new questions, a searchable electronic book, and a second practice exam with free online registration.
