Soldier State:

The Soldier and the State Samuel P. Huntington, 1957 World war II the alchemy of power Civil military relations in the postwar decade The political roles of the Joints Chiefs The separation of power and the cold war defense Departmental structure of civil military relations Toward a new equilibrium **The Army-State and Spatial Politics in Burma** Donald M. Seekins, 2025-11-27 This book paints a clear picture of Burmese political and social dynamics between 1948-2024 that is not distorted by seeing Burma as simply another case of western inspired democratization or its failure The book makes the argument that instead of focusing exclusively on the faults of Burma's army state and political leaders the country's spatial constitution is fundamental to understanding its post 1948 failure to achieve national unity Throughout the analysis Seekins reveals how the struggle to defend space from the homogenizing and coercive power of the state is essentially one of autonomy
