Soldiers A Play:

The Soldier's Reward Jennifer Ngaire Heuer, 2024-12-03 A sweeping history of intimacy and family life in France during the age of revolution The French Revolution and Napoleonic Wars devastated Europe for nearly a quarter of a century The Soldier's Reward recovers the stories of soldiers and their relationships to family and domestic life during this period revealing how prolonged warfare transformed family and gender dynamics and gave rise to new kinds of citizenship In this groundbreaking work combining social cultural gender and military history Jennifer Ngaire Heuer vividly describes how men fought for years with only fleeting moments of peace Combatants were promised promotion financial gain and patriotic glory They were also rewarded for their service by being allowed to return home to waiting families and love interests and with marriages that were arranged and financially supported by the state Heuer explores competing ideas of masculinity in France as well as the experiences of the men and women who participated in such marriages She argues that we cannot fully understand the changing nature of war and peace in this period without considering the important roles played by family gender and romantic entanglements Casting new light on a turbulent era of mass mobilization and seemingly endless conflict The Soldier's Reward shows how from the Revolution through the Restoration war intimacy and citizenship intersected in France in new and unexpected ways

Gender, Power, and Military Occupations Christine De Matos, Rowena Ward, 2012 Military occupations and interventions have a gendered impact on both those engaged in occupying and those whose lands have been occupied yet little has been published about this effect either historically or in contemporary times This collection redresses this neglect by examining and analyzing the impact of occupation on men and women both occupied and occupier in a variety of geographical spaces from Japan to the Philippines to Iraq The gendered perspectives offered are also intimately tied to analyses of power how power is enacted by the occupier how powerlessness is experienced by the occupied how power is negotiated shared compromised subverted reclaimed institutional power and contested power in post conflict societies This

collection covers a variety of geographical and period contexts in the Asia Pacific and Middle East since 1945 offering the reader a comparative view across time and space of post WWII military occupations and interventions The term military occupation is interpreted broadly to include military interventions the presence of military bases and peacekeeping post conflict operations allowing space to demonstrate that the lines between each definition are blurred Including perspectives from established and emerging scholars aid workers and activists from around the world this volume incorporates voices from those conducting research on and those with direct experience of military occupations and interventions **Army RD & A Bulletin** ,1983 The plays of William Shakespeare, ed. by T.
