Rather than focus on assessment techniques the author deals with the general considerations of what is important to find out about children and defines a standardized method of assessment the Basic Psychological Examination. He also devotes extensive coverage to such nuts and bolts issues as how to set up an interview group how to arrange and prepare the setting for the examination how to prepare a child for testing and how to confer with parents 1991 0 471 63559 6 279 pp. INTERVENTIONS FOR CHILDREN OF DIVORCE Custody Access and Psychotherapy Second Edition William F Hodges from reviews of the First Edition William F Hodges has set about the seemingly impossible task of writing a comprehensive text and manual for mental health professionals lawyers and judges.
