Method And Madness:

Using Computers in Qualitative Research Nigel G. Fielding Raymond M. Lee, 1991-04-30 This is a comprehensive assessment of recent developments in the use of computers in qualitative research an increasingly important and rapidly growing area of interest among social scientists and graduate students Using Computers in Qualitative Research profiles and compares the principal programs available identifying their particular strengths and limitations It outlines the sorts of research problems that existing and forthcoming software can and cannot handle The contributors also draw on their experiences of teaching computer based techniques to suggest ways in which these could be incorporated into research methods training Reprinted with updated information on computer resources 1992 *Novel Sociological Methods and Practices of Engagement across Disability Communities* Danielle Landry, Hannah Morgan, Temba Middelmann, Karen Soldatic, Robel Abay, 2025-11-12 Carol Thomas seminal work on the contested relations of and between the sociologies of health illness and disability has resulted in a plethora of critical insights into disabled people s sense of socio political identity This includes a growing body of critically engaged scholarship that has demonstrated the significance of working across interdisciplinary frames and transnational geographies in addition to crippling research practices in studies of the everyday experiences of disabled people and community members who live with longstanding chronic illnesses and un diagnosed health conditions This research has to date enriched the disability sociological imagination generating new insights and potential alliances that are necessary to build mobilize and sustain crosscutting communities of wellbeing This Research Topic aims to explore innovative methods in sociological research that distill shared and mutually constitutive practices of wellbeing for disabled people and community members that live across the continuum of disability health identities Research that seeks to connect the lived experiences of uniquely marginalized people with wider patterns of local and global inequity and relations of exclusion offers opportunities to advance goals of disability justice and improve accessibility in research work healthcare delivery advocacy and beyond Centering disability in sociological methods has the potential to expose inequities and disrupt normative standards systems and practices By exploring the intersection of sociology disability studies and other schools of thought and activism this Research Topic will provide new empirical and methodological insight into interdisciplinary scholarship and collaborative action The Research Topic aims to contribute to decentering the Global North in health and disability research and advocacy by incorporating insight from the Global South Scholars from the Global South and research focused on transnational connections are encouraged We invite empirical analytic or theoretical papers exploring emerging sociological methods and practices of engagement across diverse disability communities noting how communities of care are often transnational We encourage generous and generative understandings of disability and seek contributions from scholars and community based researchers in sociology disability studies political science science and technology studies anthropology Mad studies Deaf studies and other disciplines that are considering these connections This

Research Topic welcomes critical and situated contributions from all geographies especially including disabled scholars scholars in the Global South and transnational collaborations towards more equitable global knowledge production Submissions on various themes are encouraged including Interdisciplinary ruptures or points of convergence in methodologies related to disability health and illness Crippling research methods and modes of analysis Innovations in research accessibility Reflections on a disability lens for sociological methods Diverse disability identities and practices of community engagement Technological advancements in research engagement and dissemination Karen Soldatic Danielle Landry and Temba Middelman are funded and supported by the Canada Excellence Research Chair in Health Equity and Community Wellbeing at Toronto Metropolitan University

Jim Murray's Whisky Bible 2021 Jim Murray, 2020-11-26 This is the most comprehensive and thoroughly researched guide to the world's whiskies ever produced Honest forthright and proudly independent Jim Murray has for this 18th edition tasted and rated over 4 500 whiskies shedding light on more than 1 800 Scottish single malts nearly 400 blended Scotches and in excess of 900 American whiskies Jim Murray's Whisky Bible provides an unrivalled and invaluable source of reference to the consumer the whisky industry and the drinks trade alike In terms of whisky this is the gospel

Schizophrenia Orna Ophir, 2022-05-04 Throughout the world schizophrenia is a diagnosis now in decline representing a radical shift in our historical and medical understanding of madness and mental distress But what does this medical term first coined by a Swiss psychiatrist in 1908 mean And why is it increasingly unpopular among patients and the medical establishment Historian and clinician Orna Ophir unearths the stories of patients and doctors as they struggle to make sense of this debilitating condition At different times patients have been depicted as possessed by demons or simply inspired as hearing voices suffering from a split mind or merely having difficulty in integrating experiences Now a century after its birth schizophrenia is increasingly viewed not as a radical abnormal disease defined by an ever changing cluster of symptoms but the extreme end of a spectrum on which we are all located The story Ophir tells is a hopeful one As patients and doctors sought to overcome stigma and improve therapeutic outcomes they have shown ever greater sensitivity to diversity and difference Schizophrenia An Unfinished History gestures toward a future in which clinicians and patients will collaborate in the search for better outcomes
