

SONNET 116

Let me not to the marriage of true minds
Admit impediments. Love is not love
Which alters when it alteration finds,
Or bends with the remover to remove.
O no! it is an ever-fixed mark
That looks on tempests and is never shaken,
It is the star to every wand'ring bark,
Whose worth's unknown,
although his height be taken.
Lovers not Time's fool,
though rosy lips and cheeks
Within his bending sickle's compass come,
Love alters not with his brief hours and weeks,
But bears it out even to the edge of doom.
If this be error and upon me prov'd,
I never writ, nor no man ever lov'd.

Sonnets For An Analyst:

Sonnets for an Analyst Gladys Schmitt, 1973 **Sonnets for an Analyst** Gladys Schmitt, 2004 A reissuing of *Sonnets for an Analyst* poems by Gladys Schmitt **Shakespeare's Queer Analytics** Don Rodrigues, 2022-01-27 What led Shakespeare to write his most cryptic poem *The Phoenix and Turtle* Could the Phoenix represent Queen Elizabeth on the verge of death as Shakespeare wrote *Is the Earl of Essex recently executed for treason the Turtledove lover of the Phoenix* Questions such as these dominate scholarship of both Shakespeare's poem and the book in which it first appeared Robert Chester's enigmatic collection of verse *Love's Martyr* 1601 where Shakespeare's allegory sits next to erotic love lyrics by Ben Jonson George Chapman and John Marston as well as work by the much lesser known Chester Don Rodrigues critiques and revises traditional computational attribution studies by integrating the insights of queer theory to a study of *Love's Martyr* A book deeply engaged in current debates in computational literary studies it is particularly attuned to questions of non normativity deviation and departures from style when assessing stylistic patterns Gathering insights from decades of computational and traditional analyses it presents most radically data that supports the once outlandish theory that Shakespeare may have had a significant hand in editing works signed by Chester At the same time this book insists on the fundamentally collaborative nature of production in *Love's Martyr* Developing a compelling account of how collaborative textual production could work among early modern writers Shakespeare's *Queer Analytics* is a much needed methodological intervention in computational attribution studies It articulates what Rodrigues describes as queer analytics an approach to literary analysis that joins the non normative close reading of queer theory to the distant attention of computational literary studies highlighting patterns that traditional readings often overlook or ignore *Poems. Sonnets* William Shakespeare, 1884 *Romantic Poetry* Angela Esterhammer, 2002-01-01 *Romantic Poetry* encompasses twenty seven new essays by prominent scholars on the influences and interrelations among Romantic movements throughout Europe and the Americas It provides an expansive overview of eighteenth and nineteenth century poetry in the European languages The essays take account of interrelated currents in American Argentinian Brazilian Bulgarian Canadian Caribbean Chilean Colombian Croatian Czech Danish English Estonian Finnish French German Greek Hungarian Irish Italian Mexican Norwegian Peruvian Polish Romanian Russian Serbian Slovak Spanish Swedish and Uruguayan literature Contributors adopt different models for comparative study tracing a theme or motif through several literatures developing innovative models of transnational influence studying the role of Romantic poetry in socio political developments or focusing on an issue that appears most prominently in one national literature yet is illuminated by the international context This collaborative volume provides an invaluable resource for students of comparative literature and Romanticism **SPECIAL OFFER 30% discount for a complete set order 5 vols** *The Romanticism series in the Comparative History of Literatures in European Languages* is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce

five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism s own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age
