**The Battle for the Soul of Capitalism** John C. Bogle, 2005-01-01 The founder and former chief executive of the Vanguard mutual funds argues for a return to a governance structure in which owners capital that has been put at risk is used in their interests rather than in the interests of corporate and financial managers *Battle for the Soul of Capitalism*

John C. Bogle, 2005-10-10 There is no one better qualified to tell us about the failures of the American financial system and the abuses that have taken place in recent years than John C Bogle founder and former CEO of the Vanguard mutual fund group This legendary mutual fund pioneer has witnessed firsthand the innermost workings of the financial industry for more than 50 years and has set the standards for sound investment strategies and stewardship Bogle champions the restoration of integrity in industry practices today This book tells why we lost our way and how we can right our course The reforms that Bogle advances are practical and essential as are his recommendations for assuring that investors receive their fair share of financial market returns The Battle for the Soul of Capitalism John C. Bogle, 2005 The founder and former chief executive of the Vanguard mutual funds argues for a return to a governance structure in which owners capital that has been put at risk is used in their interests rather than in the interests of corporate and financial managers *The Soul of Capitalism* William Greider, 2003 Lists recent events that identify serious flaws in American capitalism noting the price of affluence on families and the environment calling for a realignment of power and sharing examples of beneficial corporate practices The Soul's Economy Jeffrey Sklansky, 2003-10-16 Tracing a seismic shift in American social thought Jeffrey Sklansky offers a new synthesis of the intellectual transformation entailed in the rise of industrial capitalism For a century after Independence the dominant American understanding of selfhood and society came from the tradition of political economy which defined freedom and equality in terms of ownership of the means of self employment However the gradual demise of the household economy rendered proprietary independence an increasingly embattled ideal Large landowners and industrialists claimed the right to rule as a privilege of their growing monopoly over productive resources while dispossessed farmers and workers charged that a propertyless populace was incompatible with true liberty and democracy Amid the widening class divide nineteenth century social theorists devised a new science of American society that came to be called social psychology The change Sklansky charts begins among Romantic writers such as Ralph Waldo Emerson and Margaret Fuller continues through the polemics of political economists such as Henry George and William Graham Sumner and culminates with the pioneers of modern American psychology and sociology such as William James and Charles Horton Cooley Together these writers reconceived freedom in terms of psychic self expression instead of economic self interest and they redefined democracy in terms of cultural kinship rather than social compact Capital Karl Marx, 1889 An Essay on the Abolition of Capital Punishment, Etc Walter Arthur Copinger, 1876 *To-day: a Monthly Gathering of Bold Thoughts*, 1884 *The Economy of Human Life, Tr. from an Indian Manuscript, Written by an Ancient Bramin* Robert Dodsley, 1883 **The**
