The Arcane of Reproduction Leopoldina Fortunati,1995 Part 2 Reproductive work is productive The dual character of reproductive work That strange form of absolute surplus value The family as a form of capital s development Capitalist accumulation and population For a worker s history of reproduction     *The Afterlife of Reproductive Slavery* Alys Eve Weinbaum,2019-02-14 In The Afterlife of Reproductive Slavery Alys Eve Weinbaum investigates the continuing resonances of Atlantic slavery in the cultures and politics of human reproduction that characterize contemporary biocapitalism As a form of racial capitalism that relies on the commodification of the human reproductive body biocapitalism is dependent upon what Weinbaum calls the slave episteme the racial logic that drove four centuries of slave breeding in the Americas and Caribbean Weinbaum outlines how the slave episteme shapes the practice of reproduction today especially through use of biotechnology and surrogacy Engaging with a broad set of texts from Toni Morrison s Beloved and Octavia Butler s dystopian speculative fiction to black Marxism histories of slavery and legal cases involving surrogacy Weinbaum shows how black feminist contributions from the 1970s 1980s and 1990s constitute a powerful philosophy of history one that provides the means through which to understand how reproductive slavery haunts the present     The Reproductive Body at Work Verena Namberger,2019-04-11 The transnational industry surrounding assisted reproductive technology and regenerative medicine is based on the unacknowledged labour of gamete providers surrogates and research subjects and benefits from low labour costs in enabling sectors such as logistics and transport This finding calls for a comprehensive analysis of how the contemporary intersection of neoliberal capitalism and the life sciences in short the bioeconomy capitalises on the body and its re productive capacities The Reproductive Body at Work uptakes this challenge as it explores the relations between value production labour and the body in one particular realm of the global bioeconomy the South African bioeconomy of egg donation It highlights different forms and dimensions of unacknowledged or precarious human labour that are constitutive for the procurement brokering and circulation of oocytes as valuable resources The analysis illustrates that the respective organisation of value and labour renegotiate what the re productive body can do which status and roles it is ascribed which cultural and economic values it signifies and how it is experienced and enacted within a matrix of intersectional power relations A theoretically profound contribution to the interdisciplinary debate on New materialism The Reproductive Body at Work will appeal to students and researchers interested in fields such as gender studies medical anthropology cultural studies sociology political economy and science and technology studies
