**City-making, Space and Spirituality** Stéphan de Beer, 2023-09-29 This book is about the soul of the city embodied in its spaces and people It traces dynamics in inner city neighbourhoods of South Africa's post apartheid capital Pretoria Viewing the city through its most vulnerable people and places it recognizes that urban space is never neutral and shaped by competing value frameworks The first part of the book invites planners city makers and ordinary urban citizens to consider a new self understanding reclaiming their agency in the city making process Through the metaphor of becoming like children planning practice is deconstructed and re imagined A praxis based methodology is presented cultivating four distinct moments of entering reading imagining and co constructing the city After deconstructing urban spaces and discourses the second part of the book explores a concrete spirituality and ethic of urban space It argues for a shift from planning as technocracy to planning as immersed participatory artistry opening up to the genius of space responsive to urban cries and joining to construct new soul full spaces Local communities and interconnected movements become embodiments of urban alternatives through resistance and reconstruction building on local assets animating local reclamations and weaving nets of hope that will span the entire city Providing a concrete methodology for city making that is rooted in a community based urban praxis this book will be of interest to urban planning researchers professional planners and designers and also grass root community developers or activists

**Intimate Couple** Jon Carlson, Len Sperry, 2013-06-17 As important as intimacy is in our personal and professional lives intimacy as a theoretical and clinical factor still remains a phenomenon Contributors to this work examine the many definitions of intimacy putting forth a provocative discussion of the multi faceted topic and offering the best possible clinical methods of creating intimacy and addressing its challenges Feedback For Learning

Susan Askew, 2004-11-23 Teachers may be surrounded by feedback and involved in it every day but the notion is poorly analysed and poorly used Feedback for Learning provides an important collection of contributions to the highly topical theme of feedback to support learning The book spans three major areas which affect all teachers young people's learning teachers learning organisational learning The authors critically examine the assumption that feedback necessarily has positive learning outcomes and describe models and practices which are more likely to result in effective learning at the individual group and organisational level

*Furthering Talk* Thomas Strong, David Pare, 2012-12-06 Recently a client coming in for her second appointment told me the story of how she had been volunteering her time for the past several years to free several innocent prisoners from Illinois prisons She told me how tenaciously and persistently she had to work against politicians who did not want these releases to take place I was so struck by her dedication and personal sacrifice of time money and energy At the end of her story I thanked her I said there were many times when I heard some story of injustice on the news and I thought to myself how I should get involved or at least write a letter But somehow other matters would take precedence my anger would dissipate and soon the issue would slip my mind Listening to her I felt grateful that there were people like her to take up the

cause and put energy and voice to my concerns I looked at her and thanked her again Reading this manuscript I was reminded of this story Editing a book on postmodern thinking and ways of being with clients is certainly not the same as confronting politicians or taking on power structures in a justice system But nonetheless after reading this manuscript I found myself grateful to Tom Strong and David Pare for their taking the time and committing the energy to the collection This is a book that should have been written It is timely and moves ideas forward This is a very worthwhile endeavor and the product reflects their dedication to contemporary ideas     Relational Responsibility Sheila McNamee, Kenneth J. Gergen, 1999 Questioning the tradition of individual responsibility this pioneering book also transforms the concept of responsibility by giving centre stage to the relational process rather than to the individual replacing alienation and isolation with meaningful dialogue The first three chapters are the editors own contribution on relational responsibility followed by their analysis of a challenging case study involving the issue of child sexual abuse The next 14 chapters contain responses from leading academics and professionals in the fields of communication psychology and organizational development which extend the editors original dialogue In conclusion Sheila McNamee and Kenneth Gergen illustrate relational responsi
