D. Wright,2012-07 W D Wright has identified and provided a provocative discussion of the existence of the Corporate Political Party and a national three party system comprised of the CPP and the Republican and Democratic parties Both the CPP and the three party system have existed unknown to the American people since the late nineteenth and early twentieth centuries hidden in plain sight The Corporate Political Party promotes the politics of deception secrecy and corruption in short anti democratic politics The CPP has two major objectives The first is to establish a national one party system by gaining control over the Republican and Democratic parties turning them into shell institutions and functioning through them this would be done as it is presently occurring by helping to get Democrats and Republicans elected to office who would be that in name only while actually being Corporate Political Party candidates and elected officials wearing two labels The second major objective is to control the national state and local governments and their treasuries through the two shell parties in order to be able to shift large amounts of taxpayers money on a continuous basis to its constituencies rich and powerful individuals and financial industrial and commercial corporations thereby seeking to create a large discrepancy of wealth on a continuous basis between its constituencies and the American population There is an urgent need for the American people to learn about the Corporate Political Party and take action against it for the sake of their own future wealth prosperity and freedom in this country

**African Americans and Jews in the Twentieth Century** Vincent P. Brown,2019-04-11 From the haute couture runways of Paris and New York and editorial photo shoots for glossy fashion magazines to reality television models have been a ubiquitous staple of twentieth and twenty first century American consumer culture In Work Elspeth H Brown traces the history of modeling from the advent of photographic modeling in the early twentieth century to the rise of the supermodel in the 1980s Brown outlines how the modeling industry sanitized and commercialized models sex

appeal in order to elicit and channel desire into buying goods She shows how this new form of sexuality whether exhibited in the Ziegfeld Follies girls performance of Anglo Saxon femininity or in African American models portrayal of black glamour in the 1960s became a central element in consumer capitalism and a practice that has always been shaped by queer sensibilities By outlining the paradox that queerness lies at the center of capitalist heteronormativity and telling the largely unknown story of queer models and photographers Brown offers an out of the ordinary history of twentieth century American culture and capitalism
