The Anglo Irish Novel And The Big House:

The Anglo-Irish Novel and the Big House Vera Kreilkamp, 1998-10-01 This book is a comprehensive study of the ascendancy novel from Maria Edgeworth's *Castle Rackrent* 1800 through contemporary reinventions of the form Kreilkamp argues that Irish fiction needs to be rescued from the critical assumptions underlying attacks on the historical mythologies of Yeats and the Literary Revival Exploring the uniquely Irish dimensions of colonial and post colonial societies Kreilkamp charts the self critical formulations of a gentry culture facing its extinction more often and more successfully with comic irony than nostalgia Kreilkamp positions the Big House novels within current debates in postcolonial criticism and theory She argues that these fictional representations of a beleaguered society provide a complex nuanced gaze into a hybrid colonial group that distanced itself from the self aggrandizements of the revivalists As she examines the gothic revisionist and postmodern permutations of an enduring national form she illustrates the ways ascendancy women transformed conventions of an English domestic genre into political fiction Her attention to Edgeworth's Irish works the fiction of the neglected Victorian novelist Charles Lever and the gothic forms of the Big House by Sheridan Le Fanu and Charles Maturin provide a historical context for later reformulations of the genre by Somerville and Ross Elizabeth Bowen Molly Keane William Trevor Jennifer Johnston Aidan Higgins and John Banville

Handbook of British Romanticism Ralf Haekel, 2017-09-11 The Handbook of British Romanticism is a state of the art investigation of Romantic literature and theory a field that probably changed more quickly and more fundamentally than any other traditional era in literary studies Since the early 1980s Romantic studies has widened its scope significantly The canon has been expanded hitherto ignored genres have been investigated and new topics of research explored After these profound changes intensified by the general crisis of literary theory since the turn of the millennium traditional

concepts such as subjectivity imagination and the creative genius have lost their status as paradigms defining Romanticism The handbook will feature discussions of key concepts such as history class gender science and the use of media as well as a thorough account of the most central literary genres around the turn of the 19th century The focus of the book however will lie on a discussion of key literary texts in the light of the most recent theoretical developments Thus the Handbook of British Romanticism will provide students with an introduction to Romantic literature in general and literary scholars with a discussion of innovative and groundbreaking theoretical developments
