**The Archaeological Journal** ,2006    **The Oxford Handbook of Roman Imagery and Iconography** Lea K. Cline,Nathan T. Elkins,2022 The Oxford Handbook of Roman Imagery and Iconography offers a comprehensive overview of visual imagery in the Roman world examined by context and period and the evolving scholarly traditions of iconographic analysis and visual semiotics that have framed the modern study of these images    [The Altars of Republican Rome and Latium](#) Claudia Moser,2018-12-31 In this book Claudia Moser offers a new understanding of Roman religion in the Republican era through an exploration of sacrifice its principal ritual Examining the long term imprint of sacrificial practices on the material world she focuses on monumental altars as the site for the act of sacrifice Piecing together the fragments of the complex kaleidoscope of Roman religious practices she shows how they fit together in ways that shed new light on the characteristic diversity of Roman religion This study reorients the study of sacrificial practice in three principal ways first by establishing the primacy of sacred architecture rather than individual action in determining religious authority second by viewing religious activities as haptic structured experiences in the material world rather than as expressions of doctrinal belief based mentalities and third by considering Roman sacrifice as a local site specific ritual rather than as a single monolithic practice    **The Nottingham Area** Royal Archaeological Institute (Great Britain). Davis,2014-05-13 Little is known about the early childhood of Jesus Christ But in the decades after his death stories began circulating about his origins One collection of such tales was the so called Infancy Gospel of Thomas known in antiquity as the Paidika or Childhood Deeds of Jesus In it Jesus not only performs miracles while

at play such as turning clay birds into live sparrows but also gets enmeshed in a series of interpersonal conflicts and curses to death children and teachers who rub him the wrong way How would early readers have made sense of this young Jesus In this highly innovative book Stephen Davis draws on current theories about how human communities construe the past to answer this question He explores how ancient readers would have used texts images places and other key reference points from their own social world to understand the Christ child s curious actions He then shows how the figure of a young Jesus was later picked up and exploited in the context of medieval Jewish Christian and Christian Muslim encounters Challenging many scholarly assumptions Davis adds a crucial dimension to the story of how Christian history was created Proceedings - Dorset Natural History and Archaeological Society Dorset Natural History and Archaeological Society,1993 List of members in each volume
