## The Invisible Reader:

**The Invisible Reader** Bridget Penney, Paul Holman, 1995 *The Invisible Book: The Knight* Mr. Z, 2019-04-01 The Knight is a poetic book of a knight saving a kingdom from a dragon invasion. A first in a series of children's books Rhyming scheme with advanced vocabulary including definitions in the footnotes. Use of psychological principles phoneme manipulation and storytelling provides young children with rich reading experiences which can lay a foundation for literacy learning.

**Literature's Elsewheres** Annette Gilbert, 2022-04-05 An examination of a series of diverse radical and experimental international works from the 1950s to the present. What is a literary work? In *Literature's Elsewheres* Annette Gilbert tackles this question by deploying an extended concept of literature examining a series of diverse radical experimental works from the 1950s to the present that occupy the liminal zone between art and literature. These works by American Artist Allison Parrish, Natalie Czech, Stephanie Syjuco, Fiona Banner, Elfriede Jelinek, Dan Graham, Robert Barry, George Brecht and others represent a pluralized literary practice that imagines a different literature emerging from its elsewhere. Investigating a work's coming into being, its transition from text to work as a social object and pragmatic category of literary communication, Gilbert probes the assumptions and foundations that underpin literature including the ideologies and power structures that prop it up. She offers a snapshot from a period of recent literary and art history when such central concepts as originality and authorship were questioned and experimental literary practices ranged from concrete poetry and Oulipo to conceptual writing and appropriation literature. She examines works that are dematerialized, site specific, unique copies of other works and institutional critiques. Considering the inequalities, exclusions and privileges inscribed in literature, she documents the power of experimental literature to attack these norms and challenges the field's canonical geographic boundaries by examining artists with roots in North and South America, East Asia and Western and Eastern Europe. The cross-pollination of literary and art criticism enriches both fields. With *Literature's Elsewheres*, Gilbert explores what art can't see about the literary and what literature has overlooked in the arts.
