The Anatomy And Diary Of An Affair:

The Diary Batsheva Ben-Amos, Dan Ben-Amos, 2020-03-10 The diary as a genre is found in all literate societies and these autobiographical accounts are written by persons of all ranks and positions The Diary offers an exploration of the form in its social historical and cultural literary contexts with its own distinctive features poetics and rhetoric The contributors to this volume examine theories and interpretations relating to writing and studying diaries the formation of diary canons in the United Kingdom France United States and Brazil and the ways in which handwritten diaries are transformed through processes of publication and digitization The authors also explore different diary formats including the travel diary the private diary conflict diaries written during periods of crisis and the diaries of the digital era such as blogs The Diary offers a comprehensive overview of the genre synthesizing decades of interdisciplinary study to enrich our understanding of research about and engagement with the diary as literary form and historical documentation Heart to Heart: A Guidebook for Relationship Recovery Kristen Burkhardt-Hanson, 2014-11-22 This is a relationship recovery guidebook that teaches couples who are currently experiencing damage and dysfunction in their marriage how to have healthy and functioning marriages This is an excellent book for those who are dealing with abuse addiction co dependency divorce illness infidelity love addiction low self esteem sexual assault and more We teach people how to work through the darkest times of their life to achieve love and happiness Development of body composition and its relationship with physical activity in healthy Swedish children Hanna Henriksson, 2015-04-27 Childhood obesity according to the World Health Organization is one of the most serious public health challenges of the 21st century The proportion of childhood obesity is high both globally and in Sweden This is of great concern since obese children tend to stay obese in adulthood In order to develop strategies to prevent early childhood obesity more knowledge is needed regarding factors explaining why children become overweight and obese Preventive strategies require accurate and easy to use methods to assess physical activity in response to energy expenditure as well as energy intake in young children but such methods are largely lacking or have shown limited accuracy The aims of this thesis were 1 to describe the longitudinal development of body composition from 1 week to 4 5 years of age 2 to study relationships between measures of body composition and the physical activity level PAL at 1 5 and 3 years of age 3 to evaluate if heart rate recording and movement registration using Actiheart can capture variations in total energy expenditure TEE and activity energy expenditure AEE at 1 5 and 3 years 4 to evaluate the potential of a 7 day activity diary to assess PAL at 1 5 and 3 years of age 5 to evaluate a new tool TECH using mobile phones for assessing energy intake at 3 years of age Healthy children were investigated at 1 and 12 weeks n 44 at 1 5 n 44 3 n 33 and 4 5 n 26 years of age Body composition was measured using air displacement plethysmography at 1 and 12 weeks and at 4 5 years of age At 1 5 and 3 years body composition TEE PAL and AEE were assessed using the doubly labelled water method and indirect calorimetry Heart rate and movements were recorded using Actiheart four days and physical activities were registered using the 7 day

diary Energy intake was assessed using TECH during one complete 24 hour period Average percentage of total body fat TBF and average fat mass index FMI were higher 3 to 81 % while fat free mass index FFMI was slightly lower 2 to 9 % in children in the study from 12 weeks until 4 5 years of age when compared to corresponding reference values A relationship between TBF% and PAL was found both at 1 5 and 3 years of age At 3 years but not at 1 5 years this could be explained by a relationship between PAL and FFMI Actiheart recordings explained a significant but small fraction 8% of the variation in free living TEE at 1 5 and 3 years and in AEE 6 % at 3 years above that explained by body composition variables At 1 5 and 3 years of age PAL estimated by means of the activity diary using metabolic equivalent MET values by Ainsworth et al was not significantly different from reference PAL but the accuracy for individuals was low Average energy intake assessed by TECH was not significantly different from TEE However the accuracy for individuals was poor The results of this thesis suggest that 1 The higher body fatness of the children in the study compared to the corresponding reference values may indicate the presence of a secular trend in body composition development characterized by a high body fatness 2 Body fatness might counteract physical activity at 1 5 years of age when the capacity to perform physical activity is limited but not at 3 years of age when such a capacity has been developed 3 Actiheart recordings explained a significant but small fraction of the variation in TEE at 1 5 and 3 years and in AEE at 3 years of age above that explained by body composition variables 4 The activity diary and TECH produced mean values in agreement with reference PAL and TEE respectively but the accuracy for individual children was low In conclusion the results of this thesis suggest the presence of a secular trend in body composition development in healthy Swedish children from infancy up to 4 5 years of age which is characterized by a high body fatness Methods to assess physical activity and energy intake at 1 5 and 3 years of age provided some promising results on a group level although further research is needed to increase the accuracy of these methods in individual children

The Real Special Relationship Michael Smith, 2023-07-18 Gripping deeply researched and authoritative the history of one of the closest intelligence and security relationships in the world The Special Relationship between the United States and Britain is touted by politicians when it suits their purpose and as frequently dismissed as myth not least by the media Yet the truth is that the two countries are bound together more closely than either is to any other ally In The Real Special Relationship Michael Smith reveals how it all began eighty years ago when a top secret visit by four American codebreakers to Bletchley Park in February 1941 ten months before the US entered World War II marked the start of a close collaboration between the intelligence services of the two nations When that war ended and the Cold War began both sides recognized that the way they worked together to decode German and Japanese ciphers could be used to counter the Soviet threat They laid the foundation for the behind the scenes intelligence sharing that has continued despite rivalries among the services and occasional political conflict and public disputes between the two nations through the collapse of the Soviet Union 9 11 the wars in Afghanistan and Iraq and to the threats of the present moment Smith who served in British military intelligence

Barker,2015-09-07 Mindfulness represents the most significant shift in the world of counselling and psychotherapy within the last decade Mindful approaches have been hailed as the third wave of cognitive behavioural therapy and mindfulness has been recommended and found to be effective at treating a wide variety of mental health issues There has been a proliferation of popular self help books based on mindfulness approaches and much debate between western mindfulness practitioners and Buddhist scholars about the ways in which mindful theory and practice is being adapted for western audiences To date however there has been relatively little research or writing considering the potentials of mindfulness for the arena of sexual and relationship therapy This book aims to address this by bringing together many of the key practitioners and researchers who are working in this area The book presents a range of perspectives on what mindful theory and practice has to offer to our understandings of and work with sex and relationships This book was originally published as a special issue of Sexual and Relationship Therapy **Journal of Contemporary Urban Affairs, Vol.2, No.3., 2018** ALMIRA KHAFIGOVA, B.A.,GOZDE
