**House documents** ,1884      **Seamanship in the Age of Sail** John H. Harland,1984 Numerous successful reprints of contemporary works on rigging and seamanship indicate the breadth of interest in the lost art of handling square rigged ships Modelmakers marine painters and enthusiasts need to know not only how the ships were rigged but how much sail was set in each condition of wind and sea how the various manoeuvres were carried out and the intricacies of operations like reefing sails or cutting an anchor Contemporary treatises such as Brady s Kedge Anchor in the USA or Darcy Lever s Sheet Anchor in Britain tell only half the story for they were training manuals intended to be used at sea in conjunction with practical experiences and often only cover officially condoned practices This book on the other hand is a modern objective appraisal of the evidence concerned with the actualities as much as the theory The author s facility in a remarkable range of

languages has allowed him to study virtually every manual published over a period of nearly four centuries This gives the book a completely international balance and allows the author to describe for the first time the proper historical development of seamanship among the major navies of the world     Official Register of the United States ,1879     *Boating Information* ,1992
