The Americas In The Modern Age:

A Cultural History of the Senses in the Modern Age David Howes, 2014-10-23 In the 20th century many aspects of life became a matter of perception in the wake of the multiplication of media stylistic experimentation and the rise of multiculturalism Life sped up as a result of new modes of transportation automobiles and airplanes and communication telephones and personal computers which emphasized the rapid movement of people and ideas The proliferation of synthetic products and simulated experiences from artificial flavors to video games in turn created heady virtual worlds of sensation This progressive mediation and acceleration of sensation along with the sensory and environmental pollution it often spawned also sparked various countertrends such as the back to nature movement the craft movement slow food and alternative medicine This volume shows how attending to the sensory dynamics of the modern age yields many fresh insights into the intertwined processes which gave the 20th century its particular feel of technological prowess and gaudy artificiality A Cultural History of the Senses in the Modern Age presents essays on the following topics the social life of the senses urban sensations the senses in the marketplace the senses in religion the senses in philosophy and science medicine and the senses the senses in literature art and the senses and sensory media

The Oxford Handbook of Gender, War, and the Western World since 1600 Karen Hagemann, Stefan Dudink, Sonya O. Rose, 2020-10-30 To date the history of military and war has focused predominantly on men as historical agents disregarding gender and its complex interrelationships with war and the military The Oxford Handbook of Gender War and the Western World since 1600 investigates how conceptions of gender have contributed to the shaping of war and the military and were transformed by them Covering the major periods in warfare since the seventeenth century the Handbook focuses on Europe and the long term processes of colonization and empire building in the Americas Asia Africa and Australia Thirty two essays written by leading international scholars explore the cultural representations of war and the military war mobilization and war experiences at home and on the battle front Essays address the gendered aftermath and memories of war as well as gendered war violence Essays also examine movements to regulate and prevent warfare the consequences of participation in the military for citizenship and challenges to ideals of Western military masculinity posed by female gay and lesbian soldiers and colonial soldiers of color The Oxford Handbook of Gender War and the Western World since 1600 offers an authoritative account of the intricate relationships between gender warfare and military culture across time and space

Herbert E. Bolton and the Historiography of the Americas Russell Magnaghi, 1998-08-20 The comparative approach to the understanding of history is increasingly popular today This study details the evolution of comparative history by examining the career of a pioneer in this area Herbert E Bolton who popularized the notion that hemispheric history should be considered from pole to pole Bolton traced the study of the history of the Americas back to 16th century European accounts of efforts to bring civilization to the New World and he argued that only within this larger context could the histories of individual nations be understood After American entry into

the Spanish American War in 1898 historians such as Bolton promoted the idea of comparative history and it remains to this day a significant historiographical approach Consideration of the history of the Americas as a whole dates back to 16th century European treatises on the New World Chapter one of this study provides an overview of pre Bolton formulations of such history In chapter two one sees the forces that shaped Bolton s thinking and brought about the development of the concept Chapters three and four focus upon the evolution of the approach through Bolton s history course at the University of California at Berkeley and the reception of the concept among Bolton s contemporaries Unfortunately Bolton never fully developed the theoretical side of his argument thus chapter five chronicles the decline of his ideas after his death The final chapter reveals the survival of the concept which is now embraced by a new generation of historians who are largely unfamiliar with Bolton s instrumental role in the promotion of comparative history

The Americas in the Modern Age Lester D. Langley, 2006 In this book the historian Lester D Langley offers a fresh interpretation of the history of the modern Western hemisphere since the mid nineteenth century He evaluates the dynamics of hemispheric history commencing with the articulation of the two Americas Theodore Roosevelt s America and the contrasting America described by the Cuban revolutionary essayist and poet Jose Marti and culminating with recent controversial efforts to forge a united hemisphere Tracing the interactions and influences among the nations of South Central and North America including Canada Langley departs from other accounts of the past 150 years He argues that the seedtime for the Americas of the early twenty first century was not the Cold War but the late nineteenth and early twentieth centuries He also contends that it is not what the countries and peoples of the Americas have in common that binds them instead their cultural political and economic conflicts tie them together

The Enslaved and Their Enslavers Edward Pearson, 2023-09-19 In *The Enslaved and Their Enslavers* Edward Pearson offers a sweeping history of slavery in South Carolina from British settlement in 1670 to the dawn of the Civil War For enslaved peoples the shape of their daily lives depended primarily on the particular environment in which they lived and worked and Pearson examines three distinctive settings in the province the extensive rice and indigo plantations of the coastal plain the streets workshops and wharves of Charleston and the farms and estates of the upcountry In doing so he provides a fine grained analysis of how enslaved laborers interacted with their enslavers in the workplace and other locations where they encountered one another as plantation agriculture came to dominate the colony *The Enslaved and Their Enslavers* sets this portrait of early South Carolina against broader political events economic developments and social trends that also shaped the development of slavery in the region For example the outbreak of the American Revolution and the subsequent war against the British in the 1770s and early 1780s as well as the French and Haitian revolutions all had a profound impact on the institution s development both in terms of what enslaved people drew from these events and how their enslavers responded to them Throughout South Carolina s long history enslaved people never accepted their enslavement passively and regularly demonstrated their fundamental opposition to the institution by engaging in acts of

resistance which ranged from vandalism to arson to escape and on rare occasions organizing collectively against their oppression Their attempts to subvert the institution in which they were held captive not only resulted in slaveowners tightening formal and informal mechanisms of control but also generated new forms of thinking about race and slavery among whites that eventually mutated into pro slavery ideology and the myth of southern exceptionalism **Global Plantations in the Modern World** Colette Le Petitcorps,Marta Macedo,Irene Peano,2023-02-02 Taking a multidisciplinary and global approach this edited book examines the dynamic role of plantations as productive socio political and ecological forms throughout imperial and post colonial worlds spanning multiple and broad temporalities Showcasing an expansive range of case studies across different geographies the collection sheds light on the heterogeneity of plantations and offers insights into the afterlives spectres and remnants of systems that have been analysed as schemes of production extraction and authority Focusing on the expansion of plantation systems throughout various political economic and ecological projects and across the modern and post modern period allows the authors to move beyond analyses that often deal with individual empires through human centered lenses The contributors explore resistance to the mechanisms of extraction and control that plantations and their afterlives demanded shedding light on their excesses contradictions failures and deviations Offering a comprehensive treatment of global plantations this book provides valuable reading for researchers with an interest in the socio political and environmental effects of colonialism and imperialism in their various guises Chapters 1 8 and 11 are available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com) *Trade and Migration in the Modern World* Carl Mosk,2007-05-07 Revolutionized by the growing use of fossil fuels and electricity and the reduced costs of transportation and communications international trade and migration has received an unprecedented boost in recent years Using a theory of economic and political gravitation backed up with both quantitative analysis and qualitative description Mosk argues that the tendency for trade and migration to flow together is tempered by market forces and political resistance to diversity in migration This results in a glaring paradox the political arenas of nation states are divided between embracing and opposing diversity in immigration the same immigration flows their own policies helped create A remarkable volume this book will be invaluable to students of economics demographic historians policy makers and political scientists **History of Civilization** Emory Adams Allen,1889 Land: How the Hunger for Ownership Shaped the Modern World Simon Winchester,2021-01-19 From the bestselling author Simon Winchester a human history of land around the world who mapped it owned it stole it cared for it fought for it and gave it back **The Theosophist** ,1889 **Proceedings of the Huguenot Society of America** Huguenot Society of America,1891 **The Mark in Europe and America** Enoch Albert Bryan,1893 History of the United States of America Under the Constitution: 1831-1847. 1889 James Schouler,1889 **Islam and the Modern Age** ,1970 **America in the East** William Elliot Griffis,1899 Harper's New Monthly Magazine ,1875 **The Works of Hubert Howe Bancroft** Hubert Howe Bancroft,1886
