It is now time for a comprehensive treatise to look at the whole field of electrochemistry The present treatise was conceived in 1974 and the earliest invitations to authors for contributions were made in 1975 The completion of the early volumes has been delayed by various factors There has been no attempt to make each article emphasize the most recent situation at the expense of an overall statement of the modern view This treatise is not a collection of articles from Recent Advances in Electrochemistry or Modern Aspects of Electrochemistry It is an attempt at making a mature statement about the present position in the vast area of what is best looked at as a new interdisciplinary field Texas A M University J O M Bockris University of Ottawa B E Conway Case Western Reserve University Ernest Yeager Texas A M University Ralph E White Preface to Volume 8 Experimental methods in electrochemistry are becoming more diverse This volume describes many of the new techniques that are being used as well as some of the well established techniques It begins with two chapters 1 and 2 on electronic instrumentation and methods for utilization of microcomputers for experimental data acquisition and reduction Next two chapters 3 and 4 on classical methods of electrochemical analysis are presented ion selective electrodes and polarography **Physical Methods of Chemistry, Electrochemical Methods**

Bryant W. Rossiter, John F. Hamilton, 1986-05-13 Each volume of this series heralds profound changes in both the perception and practice of chemistry This edition presents the state of the art of all important methods of instrumental chemical analysis measurement and control Contributions offer introductions together with sufficient detail to give a clear understanding of basic theory and apparatus involved and an appreciation of the value potential and limitations of the respective techniques The emphasis of the subjects treated is on method rather than results thus aiding the investigator in applying the techniques successfully in the laboratory **Hazardous Waste Analysis** Shane S.
