Chopin: The Four Ballades Jim Samson, 1992-10-30 Chopin's four ballades are widely regarded as being amongst the most significant extended works for solo piano of the nineteenth century. In an illuminating discussion Jim Samson combines history and analysis to provide the reader with a comprehensive picture of these popular piano works. He begins by investigating the social and musical background to Chopin's unique style. He describes the manuscript sources and evaluates the many subsequent printed editions, then considers the critical reception of the ballades and the differing interpretations of well known nineteenth and twentieth century pianists. The final two chapters examine the music of all four works analytically. There is a clearly presented formal synopsis of each ballade in turn followed by a discussion of the works collectively which explores Chopin's own conception of the title ballade and how it may be understood as a musical genre. Saturn's Moons Jo Catling, 2017-07-05 The German novelist, poet and critic W G Sebald (1944-2001) has in recent years attracted a phenomenal international following for his evocative prose works such as *Die Ausgewanderten*, *The Emigrants*, *Die Ringe des Saturn*, *The Rings of Saturn* and *Austerlitz*, spellbinding elegiac narratives which through their deliberate blurring of genre boundaries and provocative use of photography explore questions of Heimat and exile, memory and loss, history and natural history, art and nature. *Saturn's Moons*, a W G Sebald Handbook brings together in one volume a wealth of new critical and visual material on Sebald's life and works, covering the many facets and phases of his literary and academic careers as teacher, as scholar and critic, as colleague and as collaborator on translation. Lavishly illustrated, the Handbook also contains a number of rediscovered short pieces by W G Sebald, hitherto unpublished, interviews, a catalogue of his library and selected poems and tributes, as well as extensive primary and secondary bibliographies, details of audiovisual material and interviews, and a chronology of life and works. Drawing on a range of original sources from Sebald's Nachlass, the most important part of which is now held in the Deutsches Literaturarchiv Marbach, *Saturn's Moons* will be an invaluable sourcebook for future Sebald studies in English and German alike, complementing and augmenting recent critical works on subjects such as history, memory, modernity, reader response and the visual. The contributors include Mark Anderson, Anthea Bell, Ulrich von Buelow, Jo Catling, Michael Hulse, Florian Radvan, Uwe Schuette, Clive Scott, Richard Sheppard, Gordon Turner, Stephen Watts and Luke Williams. Jo Catling teaches in the School of Literature at the University of East Anglia and Richard Hibbitt in the Department of French at the University of Leeds. **Chopin Studies 2** John Rink, Jim Samson, 2006-12-14 A book that no serious student should be without, refreshingly sane.
