## **Smart Contracting For Local Government Services Processes And Experience:**

**Smart Contracting for Local Government Services** Kevin Lavery, 1999-03-30 Privatization of local government is making headlines throughout the world Scottsdale Arizona contracts for fire protection Baltimore to run nine city schools and Chicago and Philadelphia for a range of services from janitors to recreational facilities The United Kingdom New Zealand and Australia have arguably gone further than the United States But much of the debate on contracting has been high on politics philosophy and emotion with little attention to practical issues of how to do contracting well The book shifts the debate away from the politics and rhetoric to the practicalities and realities of contracting The book is concerned with four issues the role of contracting in government the appropriateness of different contracting strategies the process of contracting and who does the contracting Drawing on examples in the United States and the United Kingdom the author considers the historical and cultural context of contracting where contracting works and where it doesn't the features of smart contracting and the conditions that are conducive to smart contracting The book provides an invaluable guide to those concerned with the practicalities of contracting

**Alternative Service Delivery: Readiness Check** Gerald T. Gabris, Heidi O. Koenig, Kurt Thurmaier, Craig S. Maher, Kimberly L. Nelson, Katherine A. Piker, Alicia Schatteman, Dawn S. Peters, Craig Rapp, 2014-04-15 Alternative Service Delivery Readiness Check synthesizes academic and practitioner knowledge about alternative service delivery ASD systems This handbook offers information and insights that local governments can use to provide public services more effectively and efficiently It serves as a primer about alternative service delivery intended to guide investigation of new approaches to service delivery It derives from multiple conversations with local government practitioners in Illinois who were frustrated by a lack of guidance on how to think about alternative service delivery methods for public services and in what circumstances different alternatives were more or less successful This handbook is written for both appointed managers and elected officials who are looking for innovative ways to consider service delivery and want to answer the basic question Can we be doing this better Why does your local government want to consider providing public services in new alternative ways As the cases in this handbook demonstrate jurisdictions that successfully develop and implement an alternative service delivery method are driven by a desire to improve service effectiveness Local governments that move from tactical to strategic thinking about service delivery are the ones more likely to improve services using different forms of alternative service delivery The kinds of issues and types of questions examined in this handbook range from how to best handle such demand driven services as allocation of police and fire resources to how to share expensive equipment that your jurisdiction needs only some of the time The stories solutions and evidence are intended to help local government officials understand the differences between delivery alternatives and the prerequisites for developing and implementing each option

presents the concept of AI Cities for the first time. It includes the theoretical basis, development frontier and different application scenarios of artificial intelligence cities. The book is accompanied by rich practical cases to conduct in depth and detailed discussions on the proposition of artificial intelligence cities. It fills the gap between artificial intelligence and urban planning. This book points out the urgent human needs in the city for AI scientists to be considered in the next round of AI technology development. It also provides new ideas for urban planners and researchers to solve problems with new technologies.

*The Korean Journal of Policy Studies*, 2011      **Journal of Economic Literature**, 1999      *Privatizing Toll Roads* Wendell Lawther, 2000-06-30

Providing an in depth case study of a highly successful public private partnership, this book offers valuable insights for privatizing an existing public service. A mix of theory and empirical analysis, the study initially creates and explains a model for the Privatization Transfer Process which serves as a guide for contracting out services. Drawing on the experience of the Orlando Orange County Expressway Authority when it privatized toll road operations, the book traces the steps taken through the initial decision to privatize, the creation of the Request for Proposal and the review and rating of three bidder responses. It then follows the awarding of the bid to the Florida Toll Services and the transition from public to private control. The book also considers technical and pricing concerns as well as issues pertaining to contract management. In conclusion, it evaluates the entire effort. By offering a detailed analysis of a very successful privatization experience, the book provides a useful tool for those concerned with privatization issues.

Policy Studies Journal, 1972      **Privatization and Restructuring of Electricity Provision** Daniel Czamanski, 1999-04-30

Before the energy crisis of the 1970s, electricity provision was a non issue worldwide but the crisis of 1973 induced policymakers worldwide to consider private and restructured electricity provision as an alternative to unified publicly and privately owned systems. Czamanski examines arguments and experiences concerning the divestiture of state owned enterprises in a variety of political and technological contexts. He also considers restructuring under the Thatcher government in Great Britain, the reforms drafted by Czamanski in Israel and restructuring in the United States as well as events in Norway, the Pacific Rim, Canada and the developing countries. In addition, he considers the advantages and disadvantages of privatizing through theoretical discussion and by exploring experiences in various countries.

**The Municipal Year Book** International City/County Management Association, International City/County Management, 2005-05      American Book Publishing Record, 1999      The Municipal Year Book, 2000      *The Procurement Revolution* Mark A. Abramson, 2003-04-21

The ninth book in the IBM Endowment Series on the Business of Government, *The Procurement Revolution* continues the tradition of timely and vital information dissemination. The series has come to stand for focusing on the titular revolutionary changes the government has had and will have to make in its approach to procuring goods and services. This book strives to capture the creativity and energy that can and should be brought to government procurement.
