## **Stendhal And The Age Of Napoleon:**

Stendhal and the Age of Napoleon Gita May, 1977 Illuminates links between the nineteenth century French novelist's complex personality and his art showing that his personal loves, disappointments and involvement in the political and social issues of his day provided source material for his literary work. Reactionary Cosmopolitanism Roxana Flavia Pop, 2008 *The Spectator*, 1892 **Nineteenth-century French Studies**, 1983 *MLN*, 1979 *MLN* pioneered the introduction of contemporary continental criticism into American scholarship. Critical studies in the modern languages Italian, Hispanic, German, French and recent work in comparative literature are the basis for articles and notes in *MLN*. Four single language issues and one comparative literature issue are published each year. Selfhood, Fiction, & Desire in Stendhal's *Vie de Henry Brulard* & *Armance* Joan D. Cremin, 1998 This study centers on an evaluation of empirical selfhood, desire and fiction in two texts by Stendhal: *Vie de Henry Brulard* and *Armance*, which amply demonstrate the psychological rupture and linguistic experiments at work in his writing. Specifically in *Vie* it examines how the complex, disrupting dimension of Stendhal's writing affects his poetics of the sublime, his ironic need for self-reinvention and his subversive relationship to established esthetic norms. Similarly, the theme of desire is explored in *Armance* within the context of a decadent Romantic novel by creating an erotic subtext which suggests but never names the origin of the hero's secret. The close textual analysis sheds new light on Stendhal's skeptical approach to literature. **The ^A Novel and the Globalization of Culture** Michael Valdez Moses, 1995-05-25 Bringing together canonical European authors with authors from the Third World, this book analyzes the emergence of the modern global novel and the way it mirrors the underlying process of cultural globalization. Through detailed readings of Stendhal, Hardy, Conrad, Achebe, and Vargas Llosa, this study reveals how the spread of Western modernity, materially and culturally, has been shadowed by the destruction of traditional societies. These novels focus on the individual tragedies of those who represent pre-modern ways of life in the process, offering a corrective to Hegel's abstruse philosophy of history. From rural Victorian England to the Malay Archipelago and from the Igbo heartland in Africa to the backlands of Brazil, a global narrative unfolds, one where the forces of modernization clash with the defenders of traditional society. Moses contributes to the ongoing debate on Alexandre Kojève and the end of history while at the same time moving beyond sterile oppositions: canonical versus non-canonical works, formal literary criticism versus political/historical critique. With its new conceptualization of modernity and globalization, this book will interest the literary scholar, cultural critic, social scientist, and political theorist. **Dreadful Games** Nancy Morrow, 1988 This small, inexpensive book discusses the effect technology has had on warfare and especially on the NATO Alliance. A good primer on the subject. In the context of historical and contemporary theories of play and desire, the author identifies prevalent attitudes toward play in 19th-century European and American culture and examines the language and structure of specific kinds of games in selected texts of Stendhal, Balzac, Dostoevsky, and Henry James. Virginia Morrow,1985      *Stendhal's Parallel Lives* Francesco Manzini,2004 This book deals with the important and hitherto neglected relationship between the works of Stendhal and Plutarch's *Parallel Lives* Stendhal's readings of Plutarch are shown to inform his literary representations of Revolution and Empire Restoration and Orleanism as well as his theorizations of Romanticism In particular the Plutarchan concept of *Parallel Lives* is used to analyse one of the major themes of Stendhal's writing the self construction of individual identity whether auto biographical or fictional by means of the emulation as distinct from the imitation of heroic exemplars As a consequence the balance between irony and idealism often identified by critics in Stendhal's work is shown rather to be an imbalance weighted in favour of an idealism derived from Plutarchan conceptions of heroism particularly as they are represented in the *Lives* of Julius Caesar and Marcus Brutus      **The Times Literary Supplement** ,1982      **Napoleonic Friendship** Brian Joseph Martin,2011 The first book length study of the origin of queer soldiers in modern France      **Magill's Bibliography of Literary Criticism: Shakespeare to Zola** Stephen L. Hanson,Patricia King Hanson,1979      *The Continental Novel* Louise S. Fitzgerald,Elizabeth I. Kearney,1983      **Loyalists and Loners** Michael Foot,1986 This is a collection of Michael Foot's essays The volume is split into four categories A Labour Party Gallery Four Prime Ministers A Miscellany of Cross breeds and Some True Prophets      Women & Literature ,1978 The annual bibliography of women and literature appears in the fall issue of each volume 1975 spring 1976      **Reference Guide to World Literature** Lesley Henderson,Sarah M. Hall,1995 Overviews of writers and works from the ancient Greeks through the 20th century written by subject experts Each author entry provides a detailed overview of the writer's life and works Work entries cover a particular piece of world literature in detail      **The Encyclopedia of the French Revolutionary and Napoleonic Wars** Gregory Fremont-Barnes,2006 This comprehensive three volume work on the French Revolution and Napoleon's rule and campaigns covers a wide range of military political social and cultural events and personalities during a time of dramatic change in Europe In three extraordinarily rich volumes *The Encyclopedia of the French Revolutionary and Napoleonic Wars* captures the full sweep and legacy of the transformation of Europe from 1792 to 1815 Its nearly 900 alphabetically organized fully cross referenced entries provide students and general readers with vivid biographies of politicians sovereigns and commanders accounts of battles weaponry and diplomatic affairs insights into the art music and culture of the times and much more Unlike other works on the subject this encyclopedia combines coverage of Napoleon's rule with that of the crucial Revolutionary years in France that set the stage for his rise to power It includes contributions from the most wide ranging group of international experts ever assembled for a work on this era Students will see the full continent wide impact of France's evolution from aristocracy to democracy to military autocracy and explore the effects of nationalism empire building industrialization and international conflict which resonate with more relevance today than ever

*The Private Life of Napoleon* Arthur Lévy,1894      Forms of Life Martin Price,1983-01-01 The novel contains imagined lives that achieve a kind of meaning and intensity our own lives do not Out of the novelist's moral imagination the breadth

and depth of his awareness of human motivations tensions and complexities emerge fictional persons through whom we learn to read ourselves This eloquent book exploring fictional lives in crucial moments of choice and change stresses both their difference from and their deep connections with life Martin Price writes here about ways in which character has been conceived and presented in the novels of the nineteenth and early twentieth centuries Beginning with chapters that cogently argue the artistic value of character Price then deals with the different forms character has taken in individual novels His first discussions center on authors Jane Austen Stendhal Charles Dickens George Eliot and Leo Tolstoy who define individuals by their adherence or opposition to social norms The next chapters deal with novelists for whom the moral world is largely internalized The characters of Henry James Joseph Conrad D H Lawrence and E M Forster live in society and act upon it but the authors are particularly concerned with the confusions terrors and heroism that lie within consciousness The last chapter uses novels about the artist by James Joyce Virginia Woolf and Thomas Mann in order to apprehend the process by which experience is transformed into art Avoiding both formalistic and moralistic extremes this new book by a distinguished critic helps us recover a fuller sense of literary form and the forms of life from which it emerges
