**Queensland Targeting Maths: Teaching guide** Gloria Harris,Garda Turner,2004      **Educational Assessment in the 21st Century** Claire Wyatt-Smith,Joy Cumming,2009-08-05

Signs of Change Assessment Past Present and Future  
Another Time Another Place Examinations Then and Now In the Temple of Literature in Hanoi Vietnam a series of stone stelae records the names of the handful of illustrious examination candidates who in each century passed the national examination to become a Doctor of Literature Beginning in the 11th century

the exams were conducted personally by successive kings who pursued Confucian ideals that found expression in the enormous value placed on the pursuit of wisdom and learning In the 21st century we are both puzzled and impressed by this tradition Puzzled by such an explicit commitment to a meritocracy in an essentially feudal society impressed by this enthusiasm for learning and the pursuit of wisdom at the highest level of society Yet there are also important similarities between the 11th and 21st centuries Then as now assessment was associated with excellence high standards prestige and competition success for the chosen few disappointment for the majority Then as now the pursuit of excellence was embedded in a social context that favoured the elite and determined success in terms of the predilections of the powerful Then as now the purpose of the assessment the way it was conducted and its impact on society all reflected the social and economic priorities of the day
