## Stepping Up To Dr Dos 60:

*Standing On His Own Two Feet* Sue Grant, 2005-05-15 *Standing on His Own Two Feet* offers an insight into how health care systems serve the terminally ill the choices faced by families and ways of providing the best possible care at home and maintaining the patient's dignity until the end. In particular Sue Grant deals sensitively with the care needs of young adults.

**The Latest and Best of TESS**, 1991      *Standing on Two Feet* James D. Richardson, 2010-08 Everything seemed perfect in James Richardson's life. All the components of the American Dream seemed to be in place: a lovely home, a wife, two sons, the time required for fishing and outdoors adventures and an invigorating career as an advanced placement world history teacher in Tampa, Florida. In the horror of a split-second high-speed traffic accident, everything changed. When Richardson awoke in a hospital weeks later with a variety of physical and emotional injuries, he had no idea the obstacles he was about to face. Overcome by a haze of bewilderment, he tried to rise from his hospital bed. He crashed to the floor. His left leg was gone. One by one, the seemingly perfect building blocks of an American Dream were stripped from him. Secrets from his wife's past life emerged, painting a dark character with whom he had unwittingly shared every detail of his life. For James Richardson, this was the moment of truth. Alone, injured, boiling with anger and with only a string of hope, he had to ask himself: Would he ever again be *Standing on Two Feet*.

**Ofgem's retail market review** Great Britain: Parliament: House of Commons: Energy and Climate Change Committee, 2011-07-25 The Energy and Climate Change Committee believes that energy companies found to have mis-sold electricity and gas deals should pay compensation to consumers. The Committee is concerned that customers may be pressured into switching supplier on the door-step without proper consideration of the options when confronted with a vast array of complex tariffs and a hard sell. Figures from Ofgem suggest that up to 40% of consumers who switch do not end up with a better deal. The report also raises concerns about the propensity for energy prices to rise like a rocket and fall like a feather, the growing complexity of tariffs and the market dominance of the Big Six vertically integrated energy companies. The MPs single out recent price increases from ScottishPower for particular criticism. Customers who use the least energy will be hit the hardest from August when the increases are put into effect, providing an apparent incentive for higher consumption when energy companies are now supposed to be helping consumers become energy efficient. Electricity and gas tariffs are now so complex that even the Energy Minister admitted he got confused when trying to switch. The Committee is worried that a lot of people are simply bamboozled by their bills and the vast array of different tariffs on offer. The industry should address these problems immediately without waiting for Ofgem or the Government to act.
