Tatary O Tatarskom

Walter Sperling

Tatary O Tatarskom:

The Elusive Empire Matthew P. Romaniello, 2012-01-30 In 1552 Muscovite Russia conquered the city of Kazan on the Volga River. It was the first Orthodox Christian victory against Islam since the fall of Constantinople, a turning point that over the next four years would complete Moscow's control over the river. This conquest provided a direct trade route with the Middle East and would transform Muscovy into a global power. As Matthew Romaniello shows, however, learning to manage the conquered lands and peoples would take decades. Russia did not succeed in empire building because of its strength, leadership, or even the weakness of its neighbors. Romaniello contends it succeeded by managing its failures. Faced with the difficulty of assimilating culturally and religiously alien peoples across thousands of miles, the Russian state was forced to compromise in ways that for a time permitted local elites of diverse backgrounds to share in governance and to preserve a measure of autonomy. Conscious manipulation of political and religious language proved more vital than sheer military might. For early modern Russia, empire was still elusive: an aspiration to political, economic, and military control challenged by continuing resistance, mismanagement, and tenuous influence over vast expanses of territory.

Russia's Islamic Threat

Gordon M. Hahn, 2007-01-01 Why contemporary Russia is a dangerous seedbed for radicalized Islam and what we should be doing about it. The notion that the Chechen-led jihad in the North Caucasus is an indigenous affair far removed from the global Islamist jihad is perhaps comforting to Americans and other Westerners, but it is a myth. Moreover, the North Caucasus jihad may be the harbinger of a much larger Muslim challenge to Russia's political stability and state integrity. So concludes Gordon M. Hahn in this meticulously researched analysis of Russia's emerging Islamic threat. Hahn draws an explicit picture of an already sophisticated and effective Chechen jihadist network that is expanding the territorial scope of its operations with inspiration and some assistance from the global jihadist movement. Given its proximity to large stockpiles of diverse weapons, the expanding population of Russian-based Islamist terrorists is a particular cause for alarm. The author warns, The book lifts the veil on the Muslim challenge to Russia's political stability, national security, and state integrity, as well as the potentially grave threat to international and U.S. security. Hahn shows that many of the demographic, historical, socioeconomic, political, and religious factors sparking jihadi revolution in Muslim countries are extant in Russia and are driving revolutionary Islamist terrorism there. In a penetrating conclusion to the book, the author analyzes the policies that have fueled the rise of militant Islam and offers a series of important recommendations for policymakers.

Russia's Orient Daniel R. Brower, Edward J. Lazzerini, 1997-06-22 From a 1994 conference at the University of California Berkeley Borderlands Research Group, participants present their findings based on unprecedented access to the hinterlands of what is now the CIS. Fourteen contributors provide context for the current self-deterministic ethnic turmoil in Chechnya and elsewhere far from the Kremlin via discussions of tsarist colonial policies and historical heartland majority attitudes toward the ignoble savages and unfaithful subjects.
