[The Public International Law Regime Governing International Investment](#) José E. Alvarez, 2011-07-25. This monograph considers the ramifications of the legal regime that governs transborder capital flows. This regime consists principally of a network of some 3 000 investment treaties as well as a growing body of arbitral decisions. Professor Alvarez contends that the contemporary international investment regime should no longer be described as a species of territorial empire imposed by rich capital exporters on capital importers. He examines the evolution of investment treaties and investor State jurisprudence, constante and identifies the connections between these and general trends within public international law including the increased resort to treaties, treaty ratification, growing risks to the law's consistency, fragmentation and the proliferation of forms of international adjudication, judicialization. Professor Alvarez also considers whether the regime's efforts to balance the needs of non State investors and sovereigns ought to be characterized as global administrative law as a form of constitutionalization or as an increasingly human rights centred enterprise. **Mergent International News Reports**, 2008. **Foreign Investment in Latin America and the Caribbean 2007** United Nations Publications, 2008-10. This report provides an overview of Foreign Direct Investments (FDI) flows to and from Latin America and the Caribbean in 2007. It also examines the recent activities of transnationals in the region and of trans-Latinos outside their home countries. It further explores three topics: investment in hardware for information and communications technologies (ICT), investment in telecommunications services and Canadian investment in Latin America and the Caribbean. *Chemical Week*, 2009.
