Life Under the Jolly Roger Gabriel Kuhn, 2020-09-01 Over the last couple of decades an ideological battle has raged over the political legacy and cultural symbolism of the golden age pirates who roamed the seas between the Caribbean Islands and the Indian Ocean from roughly 1690 to 1725 They are depicted as romanticized villains on the one hand and as genuine social rebels on the other Life Under the Jolly Roger examines the political and cultural significance of these nomadic outlaws by relating historical accounts to a wide range of theoretical concepts reaching from Marshall Sahlins and Pierre Clastres to Mao Zedong and Eric J Hobsbawm via Friedrich Nietzsche and Michel Foucault With daring theoretical speculation and passionate respectful inquiry Gabriel Kuhn skillfully contextualizes and analyzes the meanings of race gender sexuality and disability in golden age pirate communities while also surveying the breathtaking array of pirates forms of organization economy and ethics Life Under the Jolly Roger also provides an extensive catalog of scholarly references for the academic reader Yet this delightful and engaging study is written in language that is wholly accessible for a wide audience This expanded second edition includes two new prefaces and an appendix with interviews about contemporary piracy the ongoing fascination with pirate imagery and the thorny issue of colonial implications in the romanticization of pirates

The Great Recession in Fiction, Film, and Television Kirk Boyle, Daniel Mrozowski, 2013-10-17 The Great Recession in Fiction Film and Television Twenty First Century Bust Culture sheds light on how imaginary works of fiction film and television reflect refract and respond to the recessionary times specific to the twenty first century a sustained period of economic crisis that has earned the title the Great Recession This collection takes as its focus Bust Culture a concept that refers to post crash popular culture specifically the kind mass produced by multinational corporations in the age of media conglomeration which is inflected by diminishment influenced by scarcity and infused with anxiety The multidisciplinary contributors collected here examine mass culture not typically included in discussions of the financial meltdown from disaster films to reality TV hoarders the horror genre to reactionary representations of women Christian right radio to Batman television characters of color to graphic novels and literary fiction The collected essays treat our busted culture as a seismograph that registers the traumas of collapse and locate their pop artifacts along a spectrum of ideological fantasies social erasures and profound fears inspired by the Great Recession What they discover from these unlikely indicators of the recession is a mix of regressive progressive and bemused texts in need of critical translation
