Art in the San Francisco Bay Area, 1945-1980 Thomas Albright,2023-12-22 Art in the San Francisco Bay Area 1945-1980 An Illustrated History by Thomas Albright provides a comprehensive exploration of the postwar art movement in one of America's most vibrant cultural hubs. Spanning over three decades, this book delves into the unique contributions of the San Francisco Bay Area to the nation's artistic heritage, covering the evolution of its art scene, its rise to prominence, and its eventual decline in relation to New York's dominance in the 1960s. Originally sparked by a series of lectures Albright gave at the San Francisco Museum of Modern Art in 1974, the book offers a rich narrative that blends personal insight with rigorous research. Albright, a longtime art critic for the San Francisco Chronicle, brings his extensive experience and insider perspective to the task of documenting a previously unexamined period in American art history. The book's beautifully illustrated pages not only capture the artistic essence of the region but also shine a light on the creative figures and movements that shaped the Bay Area's distinctive artistic voice. This invaluable volume serves as both a historical record and an engaging guide for anyone interested in the evolution of modern art in the San Francisco Bay Area. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1985. Stephen De Staebler, the Figure Stephen De Staebler, Donald Burton Kuspit,1987 Stephen De Staebler's evocative rendering of the human body is epitomized by the lifesize figures and torsos represented in more than seventy full-color illustrations in *Stephen De Staebler: The Figure*, the first full-length monograph on this major American artist. Noted critic Donald Kuspit, a contributing editor of *Art in America*, discusses how De Staebler's use of clay and bronze reflects the metaphysical foundations of his art. De Staebler's archaic figures evoke a sense of the past while, at the same time, raising questions essential to modern human existence. An exhibition history, biography, and bibliography, complemented by photographs of the artist at work, complete this portrait of a compelling contemporary artist. Provided by publisher.
