## Steps To Mystical Experience:

**Reality and Mystical Experience** F. Samuel Brainard,2008-03-05 Responding to our modern disillusionment with any claims to absolute truth regarding morality or reality this book offers a conceptual approach for discussing absolutes without denying either the relevance of divergent religious and philosophical teachings or the evidence supporting postmodern and poststructuralist critiques Case studies of mysticism within Advaita Ved \_nta Hinduism M \_dhyamika Buddhism and Nicene Christianity demonstrate the value of this approach and offer many fresh insights into the metaphysical presuppositions of these religions as well as into the nature and value of mystical experience Like Douglas Hofstadter s G \_del Escher Bach this book finds ultimate reality to be rationally graspable only as an eternal fugue of pattern and paradox Yet it does not so much counter other philosophical views as provide a conceptual tool for understanding and classifying incommensurable views

**Dimensions of Mystical Experiences** Ralph W. Hood Jr.,2021-10-25 Psychosis or Mystical Religious Experience? Susan L. DeHoff,2018-02-13 This book presents a new paradigm for distinguishing psychotic and mystical religious experiences In order to explore how Presbyterian pastors differentiate such events Susan L DeHoff draws from Reformed theology psychological theory and robust qualitative research Following a conversation among multidisciplinary voices she presents a new paradigm considering the similarities differences and possible overlap of psychotic and mystical religious experiences Religious Experience Revisited ,2016-09-07 Religious Experience Revisited explores a dilemma which has haunted the study of religion since William James Is religion rooted in experiences Is religion rooted in expressions How are experiences and expressions related The contributors to this international and interdisciplinary compilation explore the possibilities and the impossibilities of a hermeneutics of religion Combining theology and philosophy with biblical cultural historical and literary studies they examine how religious experiences and religious expressions have been entangled in the past and in the present These entanglements call for interdisciplinary conversations in which those who study experiences and those who study expressions can learn from each other in order to carve out important and instructive spaces for the study of religion

**The Varieties of Religious Experience** Michel Ferrari,2002 William James published his classic work on the psychology of religion The Varieties of Religious Experience in 1902 To mark the centenary leading contemporary scholars reflect on changes in our understanding of the questions James addressed The Varieties of Spiritual Experience David B. Yaden,Research Director at the Marcus Institute of Integrative Health Andrew Newberg,2025-08-22 This book explores scientific breakthroughs on spiritual experiences from the fields of psychology and neuroscience beginning with an account of William James s foundational work before turning to cutting edge research using neuroimaging psychedelics and large surveys Illustrated with examples of spiritual experiences drawn from a diverse set of personal accounts this book provides the basis for a scientifically informed contemporary understanding of these mysterious and deeply meaningful moments The Process of Buddhist-Christian Dialogue Paul O. Ingram,2009-07-01 While process philosophers and

theologians have written numerous essays on Buddhist Christian dialogue few have sought to expand the current Buddhist Christian dialogue into a trilogue by bringing the natural sciences into the discussion as a third partner This was the topic of Paul O Ingram s previous book Buddhist Christian Dialogue in an Age of Science The thesis of the present work is that Buddhist Christian dialogue in all three of its forms conceptual social engagement and interior are interdependent processes of creative transformation Ingram appropriates the categories of Whitehead s process metaphysics as a means of clarifying how dialogue is now mutually and creatively transforming both Buddhism and Christianity    **Deleuze and Religion** Mary Bryden,2002-01-04 Despite the ever expanding body of Deleuzian scholarship single volume has explored the religious dimensions of Deleuze s writing Now Mary Bryden has assembled a team of international scholars to do just that Their essays illustrate the ways in which Deleuzian thought is antithetical to religious debate as well as the ways in which it contributes to those debates This volume will be invaluable for researchers teachers and students of theology philosophy critical theory cultural studies and literary criticism as well as to students of French who read Deleuze s work in its original language
