Stick Insect Bugs:

Stick Insects Sandra Markle, 2008-01-01 Watch out for these masters of defense stick insects Their secret weapon is being able to hide in plain sight To protect themselves from predators they have developed long narrow bodies They blend right in to the branches they live on Some stick insects even have extra growths that look like leaves for more camouflage Stick insects also protect themselves by being most active at night when it is even harder to see them They escape from predators by dropping to the forest floor where they look like fallen sticks and leaves In this exciting book you can learn what makes stick insects similar to and different from other insects Close up photographs and diagrams reveal extraordinary details about stick insects bodies both inside and out And you can perform activities that help you observe how stick insects live and how they hide by keeping still Learn more about this exciting member of nature s fascinating Insect World **20**

Fun Facts About Stick Bugs Heather Moore Niver, 2013-01-01 Stick bugs are masters of disguise They can look like a twig on a tree or a leaf on the ground If they stand perfectly still you may not even notice them Chances are you ve seen one and just didn t know it Readers get the perfect opportunity to spy these sneaky creatures blending in with their natural habitat while learning many fun facts about stick bugs including which is the longest which resembles a lobster and the many devious ways they avoid being caught by predators **The Stick Insect** Joy Paige, 2001-12-15 Some stick insects are longer than your arm *Stick Insect* Karen Hartley, Chris Macro, Philip Taylor, 2008 Can stick insects fly What do stick insects eat Where do stick insects live Are you brave enough to find out more about these interesting creatures How are born How do they grow feed move and have babies Where do they live and what do they look like What makes them special **The Complete Field Guide to Stick and Leaf Insects of Australia** Paul D. Brock, Jack W. Hasenpusch, 2009 Australia has a rich diversity of phasmids otherwise known as stick and leaf insects Most of them are endemic few have been studied and new species continue to be found Stick insects are by far Australia s longest insects some of them reach up to 300 mm in body length and more than 500 mm including outstretched legs Many stick insects are very colorful and some have quite elaborate defensive behavior Increasingly they are being kept as pets This is the first book on Australian phasmids for nearly 200 years It includes photographs and distribution maps for all species notes on their ecology and biology as well as identification keys suitable for novices or professionals **A Complete Guide to Breeding Stick and Leaf Insects** Paul D. Brock, 2000 Neural Basis of Elementary Behavior in Stick Insects Ulrich Bässler, 2012-12-06 This monograph represents the current status of neuro ethological research on the diurnal behavior of the stick insect *Carausius morosus* The growing profusion of inter related studies many of which are published only in German makes an overview of this field increasingly difficult Many stick insect results contribute to general problems like control of catalepsy control of walking program dependent reactions and control of joint position For this reason I decided to compile and synthesize the results that are presently available even though the analyses are far from concluded In addition to both published and unpublished results of

the group in Kaiserslautern Bassler Cruse Ebner Graham Pfluger Storrer as well as doctoral and masters students I have drawn upon the literature which had appeared as of summer 1981 This includes above all the work of Godden and of Wendler and his colleagues in Cologne A summary of the anatomical and physiological background necessary for an understanding of these investigations is provided in an appendix Chap 6 Methodological details must be obtained from the original publications Figures for which no source is given are from my own studies I intend to update this monograph on an annual basis Requests for these supplements should be directed to me in Kaiserslautern I would like to express my appreciation to all members of the group in Kaiserslautern for their constructive discussions their unflagging cooperation and their permission to include hitherto unpublished results
