B. Kerfoot,1914      Manheim April Lynn Gibble

Downey,2021 Manheim is a charming little town nestled in the countryside of Lancaster County Pennsylvania Founded by an eccentric glassmaker named Henry William Stiegel in 1762 this town was born of entrepreneurship and the hardy adventuresome spirit of early America Despite its founder's unfortunate financial downfall Manheim made it through the Revolutionary War and continued to grow into a center of commerce for the surrounding farmland Through the 20th century Manheim continually grew in pride of its history and in modernization as electric lights piping and paved roads built up the town's infrastructure Today Manheim remains rooted in industry but also offers visitors and residents a variety of boutiques art studios and community events One can also stroll through the streets of Manheim as though walking through time itself as many buildings from the early 1900s the 1800s and even two from the 1700s still grace the town's streets making it an architectural gem      **Historical Archaeology of the Delaware Valley, 1600-1850** Richard Veit,David Orr,2014-01-30 The Delaware Valley is a distinct region situated within the Middle Atlantic states encompassing portions of Delaware Pennsylvania New Jersey and Maryland With its cultural epicenter of Philadelphia its surrounding bays and ports within

Maryland and Delaware and its conglomerate population of European settlers Native Americans and enslaved Africans the Delaware Valley was one of the great cultural hearths of early America The region felt the full brunt of the American Revolution briefly served as the national capital in the post Revolutionary period and sheltered burgeoning industries amidst the growing pains of a young nation Yet despite these distinctions the Delaware Valley has received less scholarly treatment than its colonial equals in New England and the Chesapeake region In Historical Archaeology of the Delaware Valley 1600 1850 Richard Veit and David Orr bring together fifteen essays that represent the wide range of cultures experiences and industries that make this region distinctly American in its diversity From historic period American Indians living in a rapidly changing world to an archaeological portrait of Benjamin Franklin from an eighteenth century shipwreck to the archaeology of Quakerism this volume highlights the vast array of research being conducted throughout the region Many of these sites discussed are the locations of ongoing excavations and archaeologists and historians alike continue to debate the region's multifaceted identity The archaeological stories found within Historical Archeology of the Delaware Valley 1600 1850 reflect the amalgamated heritage that many American regions experienced though the Delaware Valley certainly exemplifies a richer experience than most it even boasts the palatial home of a king Joseph Bonaparte elder brother of Napoleon and former King of Naples and Spain This work thoroughly based on careful archaeological examination tells the stories of earlier generations in the Delaware Valley and makes the case that New England and the Chesapeake are not the only cultural centers of colonial America
