## Germany Since 1918:

Germany Since 1918 David Childs,1971      **The Heroic Earth** David Thomas Murphy,1997 In The Heroic Earth David T Murphy argues that geopolitical ideas were most dynamic and significant in Germany not during the Nazi era 1933 45 but in the democratic culture of the Weimar republic 1919 33 By helping to condition the German population to geopolitical ideas which emphasized revision of the Versailles settlement and enlarging Germany s living space geopolitics helped contribute to Nazi imperialism From the defeat of Germany in 1918 until the rise of National Socialism in 1933 theories of geographical determinism enjoyed a broad currency in many fields of German public life The ancient notion that environmental factors climate topography resource distribution shape society in significant ways was now applied in a radically determinist fashion to help Germans understand why they had lost the war and what they had to do to regain their place among the Great Powers Under the rubric of Geopolitik politicians teachers writers and others argued that the key to Germany s past and the hope for its future lay in understanding geography s determining impact upon races cultures states and warfare Theories of geographical determinism shaped German thinking about politics race science education aesthetics and many other subjects on the eve of the Nazi era Challenging traditional historiography Murphy argues that geopolitics faded in importance after Adolf Hitler came to power

**Germany in the Twentieth Century (RLE: German Politics)** David Childs,2014-12-17 The book traces the development of Germany from the Kaiser s Reich in the 1870s to the reunited democratic state led by Helmut Kohl in the 1990s The author begins by countering the popular view of Germany before 1914 as irredeemably reactionary and after assessing Germany s part in the First World War he outlines the rise and fall of the Weimar Republic The 12 years of Hitler s destructive experiment are presented in a balanced way as part of the overall development of the country

Germany in defeat is then discussed as is her rebirth under Four Power occupation The last chapters explore the two separate German states and the events leading up to the restoration of German unity

The Ailing Empire: Germany from Bismarck to Hitler Sebastian Haffner,2019-08-16 Using his skills as a journalist historian and memoirist Sebastian Haffner

author of The Meaning of Hitler traces the development of the German Empire 1871 1945 and the central role of warfare that characterized the Reich Haffner contends that Germany s unfavorable geographic position had much to do with the state s belligerence and that from its inception created the conflicts that culminated in two world wars The fruit of decades of study the moving and sometimes very personal testament of an author whose works more than any others have influenced public opinion and challenged academic historians Die Zeit A brilliant work from the top hat of a powerful historical magician Rudolf Augstein Der Spiegel A thoroughly successful work Wiener Tagblatt A book with more historical insights than a whole pile of learned volumes M nchner Abendzeitung The history of the Third Reich in just 43 pages Impossible to do more than discuss a few features superficially But not with Sebastian Haffner This brilliant thinker a journalist turned historian reveals the fundamental lines of development in a way that anyone can follow The pages bristle with questions and unexpected

answers The 300 pages of The Ailing Empire contain more clever and original insights into German history between 1871 and 1945 than many a weighty tome Dieter Wunderlich This illuminating survey by a German journalist focuses on the continuities and discontinuities of the modern German Reich Haffner argues that the founding of the state was never regarded as a climactic achievement but rather as a springboard for expansion and that Germany's unfavorable geographic position had much to do with the state's armed belligerence The author also contends that the Reich was self destructive almost from the beginning creating a host of enemies who brought it to its knees in two world wars and eventually divided it He describes how Hitler accelerated the catastrophic finish of the Reich by inopportunely taking on both the Russians and Americans then tried to turn military defeat into the annihilation of the German people with his Nero Directive of March 18 1945 Publishers Weekly The Ailing Empire tells the story of yesterday's Germans who made today It is a story Americans must understand San Diego Union Sebastian Haffner has written a book that traces the path of Germany's political self destruction and offers a realistic account of the war's real causes It is a highly readable analysis of the road from Bismarck to Hitler This book based on many previously unpublished accounts is a devastating portrait of human society Chattanooga Times This is a highly readable analysis of German history over the last century A long time journalist Haffner asserts that the foundations of the German Reich were an inadequate basis for a modern nation state and contained the seeds of its own destruction Though lacking documentation Haffner's first hand recollections of the Nazi era are most interesting Particularly noteworthy are his observations on daily life during the regime and his judgment regarding those literary and artistic antis who chose internal emigration within the Hitler state Library Journal

### **Disobedience and Conspiracy in the German Army, 1918-1945**

Robert B. Kane, 2008-04-24 This work examines among other topics the personal oath of loyalty that the officers of the German army swore to Adolf Hitler on August 2 1934 It discusses how the majority of officers those who did not become conspirators against him complied with Hitler's orders until May 1945 despite his cruel treatment of soldiers militarily unsound strategy and tactics and the widespread destruction and crimes he and his forces committed The oath taken by the officers had a strong psychological effect among a proud corps with a long history of obedience and honor They followed Hitler to the end even though they knew they were fighting a losing battle The author also examines why and how only a few officers the conspirators began to break away lose trust in Hitler oppose him and finally stage an assassination attempt This history traces the development within the German army from 1918 of the philosophies of loyalty and disloyalty and obedience and disobedience as challenged by the Hitlerian oath of loyalty

### **German Post-Expressionism : The Art of the Great Disorder 1918-1924**

German Post Expressionism is the first study to reconstruct historically the evolution of Die neue Sachlichkeit the slogan coined as a designation for the Post Expressionist figural art that developed throughout Germany following the failed revolution of 1919 Rather than starting with the moment this Post Expressionist movement was christened with a slogan 1923 Crockett investigates the sources and precepts of Post Expressionism beginning with the anti

Expressionist stance of Dada in 1918 and the loss of faith in Expressionism on the part of some of its chief supporters during 1919-20 **Germany After the First World War** Richard Bessel, 1993 A social history of Germany in the years following the First World War this book explores Germany's defeat and the subsequent demobilization of its armies events which had devastating social and psychological consequences for the nation Bessel examines the changes brought by the War to Germany including those resulting from the return of soldiers to civilian life and the effects of demobilization on the economy He demonstrates that the postwar transition was viewed as a moral crusade by Germans desperately concerned about challenges to traditional authority and he assesses the ways in which the experience of the War and memories of it affected the politics of the Weimar Republic This is an original and scholarly book which offers important insights into the sense of dislocation both personal and national experienced by Germany and Germans in the 1920s and its damaging legacy for German democracy *A History of Germany 1918 - 2014* Mary Fulbrook, 2014-12-31 The fourth edition of A History of Germany 1918-2014 A Divided Nation introduces students to the key themes of 20th century German history tracing the dramatic social cultural and political tensions in Germany since 1918 Now thoroughly updated the text includes new coverage of the Euro crisis and a review of Angela Merkel's Chancellorship New edition of a well known classic survey by a leading scholar in the field thoroughly updated for a new generation of readers Provides an overview of the turbulent history of Germany from the end of the First World War through the Third Reich and beyond examining the character and consequences of war and genocide Treats German history from 1918 to 2014 from the perspectives of instability division and reunification covering East and West German history in equal depth Offers important reflections on Angela Merkel's Chancellorship as it extends into a new term Concise substantive coverage of this period make it an ideal resource for undergraduate students [Britain's Economic Blockade of Germany, 1914-1919](#) Eric W. Osborne, 2004-06-24 This text studies Great Britain's economic blockade of Germany in World War I one of the key elements to the victory of the Entente

**News from Germany**, 1939 **History of Germany, 1918-2000** Mary Fulbrook, 2002 Traces the dramatic social cultural and political tensions in Germany since 1918 from the self destructive Weimar Republic through the extremes of genocide and military aggression in the Nazi era to the extraordinary political experimentation of division of the nation in the Cold War culminating in the collapse of communist East Germany and unification with capitalist democratic West Germany in 1990 Publisher's description **Weimar Germany, 1918-1933** John Richard Philip McKenzie, 1971 [Germany Since 1918](#) Frederick Lewis Schuman, 1944 [American Intelligence And The German Resistance](#) Jurgen Heideking, Christoph Mauch, 2018-02-23 Even paranoids have enemies Hitler's most powerful foes were the Allied powers but he also feared internal conspiracies bent on overthrowing his malevolent regime In fact there was a small but significant internal resistance to the Nazi regime and it did receive help from the outside world Through recently declassified intelligence documents this book reveals for the first time the complete story of America's wartime knowledge about encouragement of and secret

collaboration with the German resistance to Hitler including the famous July 20th plot to assassinate the Fuehrer The U S government's secret contacts with the anti Nazi resistance were conducted by the OSS the World War II predecessor to the CIA Highly sensitive intelligence reports recently released by the CIA make it evident that the U S government had vast knowledge of what was going on inside the Third Reich For example a capitulation offer to the western Allies under consideration by Count von Moltke in 1943 was thoroughly discussed within the U S government And Allen Dulles who was later to become head of the CIA was well informed about the legendary plot of July 20th In fact these secret reports from inside Germany provide a well rounded picture of German society revealing the pro or anti Nazi attitudes of different social groups workers churches the military etc The newly released documents also show that scholars in the OSS many of them recruited from ivy league universities looked for anti Nazi movements and leaders to help create a democratic Germany after the war Such intelligence gathering was a major task of the OSS However OSS director Wild Bill Donovan and others favored subversive operations spreading disinformation and issuing propaganda Unorthodox and often dangerous schemes were developed including bogus resistance newspapers anti Nazi letters and postcards distributed through the German postal service sabotage and fake radio broadcasts from German generals calling for uprisings against the regime This is much more than a documentary collection Explanatory footnotes supply a wealth of background information for the reader and a comprehensive introduction puts the documents into their wider historical perspective Arranged in chronological order these intelligence reports provide a fascinating new perspective on the story of the German resistance to Hitler and reveal an intriguing and previously unexplored aspect of America's war with Hitler
