The Cambridge History of English Literature: The drama to 1642 Alfred Rayney Waller, Sir Adolphus William Ward, 1918 **Taming of the Shrew** William Shakespeare, 1887 **British Books**, 1911 **The British Literary Book Trade, 1475-1700** James K. Bracken, Joel Silver, 1996 Discusses the literary book trade in Britain beginning with the introduction of the handpress and ending within a century of the revolution that widespread mechanization would bring to book production This development occurred during a time of religious political and social upheaval including the Reformation of the sixteenth century and the struggles between the Crown and Parliament leading to the Civil War of the 1640s and the Glorious Revolution of the 1680s *The Renaissance Englishwoman in Print* Anne M. Haselkorn, Betty Travitsky, 1990 This volume offers 18 essays on women as writers or as objects of representation in the English Renaissance By analyzing the ways in which women are treated both in the traditional canon and in writings hitherto excluded the book establishes a broader context for the interpretation of these writings At the same time the essays treat texts as cultural documents that raise questions about English politics religion economics and power relations Together the pieces reveal much about the

gender system operating in Renaissance England and the range of women's experience during this period. The book explores the interrelated subject of women's visibility/invisibility, empowerment, suppression, and voice silencing, and also documents the efforts of individual women who engaged, not necessarily consciously, in the creation and recreation of a female cultural presence, and discusses differences and similarities between male and female representations of women's experience. The book is arranged in five sections: Part 1 explores women's voices in three literary genres; Part 2 examines portrayals of female empowerment, suppression, and resistance in Renaissance drama; In part 3 the authors look at the woman ruler, discussing both her authority and her limitations; Part 4 treats the repression of women in the private sphere; and part 5 addresses the voices and silences of women in texts by male and female writers of the Sidney family. The final chapter is an annotated bibliography covering women writers from 1500 to 1640. It establishes the current parameters of scholarship in this area and suggests directions for future research and publishing.
