**Essential Study and Employment Skills for Business and Management Students** Kevin Gallagher, 2016 Essential Study and Employment Skills for Business and Management Students offers a comprehensive one stop guide that will equip you with all the necessary skills needed to enhance your success both during university and in your future working environment. It covers all the core areas associated with business and management degrees and offers a unique focus on employability to ensure that you can translate the skills you acquire into professional practice. This third edition has been fully revised to include a new group activity in each chapter as well as updated activities throughout to reinforce the skills introduced in each chapter. The content and structure of the book has been updated to focus more effectively on core areas such as the use of quantitative data and the development of professional skills and employability. With the main focus of the book firmly on active experimentation and reflection, Essential Study and Employment Skills for Business and Management Students remains unparalleled as a resource to support, encourage and develop business and management students throughout their time at university and beyond. Online Resource Centre For students: Selected activities from the text including templates to complete online; Answer guidance on writing style and using a narrative approach; Critical incidents log; Excel workbook to provide additional support in areas such as constructing pie charts, bar charts and line charts; Information on using Excel in data analysis; Web links; YouTube channel featuring relevant videos on skills including interviews with students and graduates that accompany the book. For lecturers: PowerPoint slides.

**Essential Guides for Early Career Teachers: Understanding Your Role in Curriculum Design and Implementation** Henry Sauntson, 2025-02-28 This is a must read for early career teachers. ECTs focusing on the role of the ECT in terms of school curriculum design and implementation. It explores the topics surrounding curriculum that those in training or ECT induction are likely to encounter and need to understand and offers a range of practical and critical strategies and approaches to curriculum design. It begins with examining the history of the core ideas around curriculum including educational philosophy and concepts before moving on to planning, reflection and principled intent and implementation. It also delves into the various roles of those involved in curriculum design. This is an essential text for ECTs as curriculum is a key aspect of the Core Content and Early Career Frameworks. It draws on real life enactments and models to help those in their early stages understand their role in curriculum implementation especially in relation to the Ofsted focus on the quality of education and the role of all teachers as professionals. Most importantly, this book recognises curriculum as the beating heart of any strong educational offer. [Im-Kybrdng/Format Essent](#)
