Borkowski's Textbook on Roman Law is the leading textbook in the field of Roman law and has been written with undergraduate students firmly in mind. The book provides an accessible and highly engaging account of Roman private law and civil procedure with coverage of all key topics including the Roman legal system and the law of persons, property and obligations. The author sets the law in its social and historical context and demonstrates the impact of Roman law on our modern legal systems. For the fifth edition, Paul du Plessis has included references to a wide range of scholarly texts to ground his judicious account of Roman law firmly in contemporary scholarship. He has also added examples from legal practice as well as truncated timelines at the start of each chapter to illustrate how the law developed over time. The book contains a wealth of learning features including chapter summaries, diagrams and maps. A major feature of the book is the inclusion throughout of extracts in translation from the most important sources of Roman law, the Digest and the Institutes of Justinian. Annotated further reading sections at the end of each chapter act as a guide to further enquiry.

Online Resource Centre The book is accompanied by an extensive Online Resource Centre containing the following resources: Self test, multiple choice questions, Interactive timeline, Biographies of key figures, Glossary of Latin terms, Annotated web links, Original Latin versions of the extracts from the Digest and the Institutes of Justinian, Examples of textual analysis of Roman law texts, Guide to the literature and sources of Roman law.

Textbook of Roman Law Buckland, 1932 **The First Year of Roman Law** Fernand Bernard, 2010-02 Bernard Fernand. The First Year of Roman Law. Translated by Charles P. Sherman. New York: Oxford University Press, 1906. xiii + 326 pp. Reprinted 2010 by The Lawbook Exchange Ltd. ISBN 13 9781616190224 ISBN 10 1616190221. Paperback. New. 21 x 9.5 inches. This is a useful introduction to Roman law with a level of detail that falls midway between an outline and a textbook. Carefully organized, it is also an excellent reference guide. To begin with, it is quite comprehensive for there is not a single principle of Roman law sufficiently important to be included in first year study which the author has omitted. Legal principles and definitions are very concisely stated and a lecturer on the subject will be glad to find an important rule given in such brief, almost epigrammatic form that it can be readily committed to memory. Another good feature is the practice of frequently citing the original Latin phrases and sentences. Lastly, the translator has provided a good index which is a valuable addition to the original work. We are sure that many teachers of Roman law will welcome this book as a manual to be placed in the hands of their students.

Columbia Law Review 7 (1907) 377-378 [A Text-Book of Roman Law from Augustus to Justinian \(Classic Reprint\)](#) William Warwick Buckland, 2017-11-05. Excerpt from *A d104 Book of Roman Law From Augustus to Justinian*. The following pages contain an attempt to state the main rules of the Private Law of the Roman Empire for the use of students and the chief purpose of the writer has been to set out the established or accepted doctrines. This consideration may be held to justify the arrangement of the book. Much criticism, often well founded, has been directed at the arrangement adopted by Gaius and followed by Justinian in his Institutes and many modern treatises adopt arrangements differing from it in important respects. But these arrangements differ so widely among themselves that it may

fairly be assumed that none of them has such overwhelming advantages as to make it desirable for the present purpose to adopt it in view of the fact that the texts to which the student is directed adopt a different order The general plan of the book therefore follows the Institutional arrangement though with no hesitation in abandoning it where this course seems to tend to lucidity of exposition In truth no order of treatment can be quite satisfactory The study of any branch of the law calls for some knowledge of ideas which are to be looked for in other branches The law of Persons suffers least from this source of difficulty and can therefore conveniently be studied first But it is not quite free from it in particular ideas connected with civil procedure are frequently involved This is the case throughout the law in all systems the remedy is the root of the matter Rules of Law do not enforce them selves and a general idea of the system of remedies of the steps to be taken if a right is infringed of the broad distinctions between the different remedies for infringement of different kinds of right and of the nature of the relief which can be obtained will be found greatly to facilitate the study of the substantive law A very brief account of these matters has been prefixed¹ to the detailed account of the law of procedure and the student is advised to familiarise himself with this before beginning his systematic study of the book About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
