Protoplasmic Theory of Life John Gordon Stewart Drysdale, John James Drysdale, 1874 **Pathos and Praxis** Scott Davidson, 2025-04-01 Pathos and Praxis presents a new and original framework for an integrated phenomenology of life It provides the first comparative study of two influential French philosophers Paul Ricoeur and Michel Henry and shows that their debates over the interpretation of Sigmund Freud and Karl Marx signal two rival approaches to the phenomenology of life Author Scott Davidson demonstrates that while Henry reveals the phenomenological meaning of life through an inward turn to a pure subjective feeling of being alive Ricoeur anchors its significance in the reciprocal interaction between the self and the world But these two alternatives are not necessarily opposed Pathos and Praxis proposes an integrated phenomenology of life to which both Henry and Ricoeur make an important contribution To be a self is to suffer the pathos of having a life but also to be capable of engaging in the praxis of leading a life By thinking the pathos and praxis of life together the integrated approach preserves human agency against deterministic conceptions of life and at the same time avoids the meritocratic hubris that depicts one's life solely as the result of one's own doing This integration of having and leading a life reframes our thinking about human capabilities and vulnerabilities in a way that has important implications for biopolitics and the ethics of life **Lessons in Disability** Jacob Stratman, 2015-11-16 Disability is a growing reality According to the United States Census Bureau approximately 57 million people 19 percent of the population had a disability in 2010 more than half being reported as severe Interest in disability studies is also growing in literature film art politics and religion Exploring the intersection between disability and young adult literature this collection of new essays fills a gap in scholarship between teachers and YAL scholars The contributors offer textual analysis best practices and numerous examples that enable teachers to expose students to dynamic characters who both reflect and contrast with the reader's reality
